Capsa Healthcare: Smarter, More Efficient Clinical Workflows

For over 60 years, Capsa has delivered purpose-built technology solutions that help hospitals streamline operations and simplify daily clinical tasks. Our integrated pharmacy automation, medication management, and point-of-care platforms are engineered to improve efficiency, reduce manual workload, and keep teams moving.

Engineered for IT Reliability. Built for Nursing Ease.

Capsa's mobile and wall-mounted workstations are designed for durability, uptime, and seamless integration with your existing systems. Fast to deploy and easy to maintain, our solutions support consistent performance across every unit, minimizing disruptions and maximizing productivity.

Workflow-Driven. User-Focused.

From documentation and virtual interactions to medication management and supply organization, our point-of-care tools help clinicians complete tasks efficiently and stay focused on priorities. Every solution is developed in close collaboration with healthcare teams to ensure the right fit for each environment.

End-to-End Partnership

Beyond installation, Capsa provides comprehensive service and support to ensure every system performs at its best, day after day and year after year.

Trio™ COMPUTING WORKSTATIONS

The Trio Computing Workstation is a versatile mobile cart built for modern clinical workflows. It delivers smooth maneuverability, ergonomic design, and the dependable, scalable GoLiFe power system.

Choose from multiple in-base power capacities or extend runtime with the GoLiFe external battery. Trio also features N-Sight Fleet Management, enabling IT teams to remotely monitor and manage workstation performance.

- Slim profile, improved mobility and enhanced features
- Trio and Trio LT feature the GoLiFe hybrid power system for extended mobile runtime
- Configurable with an array of drawer and bin options
- N-Sight™ Fleet Management software with enhanced user management tools comes standard with the full-featured Trio workstation

PERSONAL ERGONOMICS

Personally adjustable for optimal user comfort including memory presets

THOUGHTFUL TOOLS

Control center provides simple touch screen navigation to informative tools

N-SIGHT™ FLEET MANAGEMENT

Enhanced N-Sight software to monitor and optimize fleet utilization

Trio™ FEATURES & MODELS

SIMPLE MOBILITY

Slim profile, lightweight platform with enhanced steering assist for easy mobility and control

STORAGE FLEXIBILITY

Supports a variety of storage options including MaxBin™ storage module

N-Sight™ FLEET MANAGEMENT

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts (Trio & CareLink only).

 **N-SIGHT** helps you monitor your fleet.

N-Sight™ OPTIMIZE YOUR FLEET

N-Sight helps facilities improve asset utilization, maximize fleet performance and value, and help prevent issues before they impact clinical workflow. The cloud-based N-Sight software features analytics to support optimized fleet utilization and simplified user management tools.

Robust Cloud Solution

N-Sight is a cloud based platform with no client software to install on facility desktop workstations or cart-based computers.

Maximize Uptime and Availability

Maintain cart availability while proactively monitoring cart fleet power levels and performance. Analytics provide visibility into power usage and allow adjustments to technology settings to maximize cart runtime.

Right-Size Fleet

Evaluate cart usage patterns and peak needs to determine if the number of carts deployed meet current clinical demands. Identify opportunities to redeploy carts to locations with greater needs, optimizing asset utilization.

Remote Fleet Management

N-Sight enables remote management of cart user groups, PIN codes, and user permissions. Save time finding lost carts with cart locator*, based on the last wireless access point.

Configuration Settings

Centralized management of cart configurations for displays & alerts, PINs, notifications and service requests.

Integration with Hospital Systems

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SMTTP input.

MedLink™ MEDICATION WORKSTATIONS

The MedLink™ Cart is a closed-loop medication management solution designed to streamline clinical workflows.

Secure, lockable drawers and patient wristband scanning help support an efficient, end-to-end medication process. Patient-specific, electronically labeled drawers, loaded at the pharmacy, ADC, or nursing station, keep medications organized and ready for delivery at the point-of-care.

- AutoFit™ Technology offers ease of adjustment for each user with combined adjustment for the work surface, keyboard, and display
- 20" (50.8 cm) height range ensures comfortable ergonomic accommodation for seated and standing caregivers
- Power Track™ steering enables caregivers to easily maneuver in tight spaces and corridors
- Modular drawer design allows customizable layout and drawer sizes to meet workflow demands
- RFID technology assists in locating each patient drawer – to cart, cassette, caregiver

AUTOFIT™ TECHNOLOGY

Ease of adjustment for each user in a shared work environment control

POWER TRACK™ STEERING

Easily maneuver in tight spaces or corridors

MedLink™ Pro Software

MedLink Pro, the next generation in medication management software, retrieves and displays key medication data and supports secure, efficient workflows. It is designed to reduce human error and help maintain a streamlined, closed-loop medication process.

- Drawers can be assigned to an individual patient through electronic labeling
- HL7 integration allows patient labels to be selected from the existing hospital patient list rather than manual entry
- RFID-embedded technology assists in locating each patient drawer – to the specific cart, cassette and caregiver
- Assigned drawers can be opened automatically by scanning a patient wristband barcode
- Integrates with Microsoft Active Directory

Tryten™ S-Series MONITOR & TABLET CARTS

The S-Series monitor and tablet carts are a lightweight, highly maneuverable mobile cart platform designed for telehealth, VRI, telesitting, EHR workflows, and more—improving provider workflows by bringing technology exactly where it's needed.

- Weighted, small footprint base
- Whisper-quiet, non-marking, lockable wheels
- Concealed cable management
- Medical-grade, wipeable components
- Large, height-adjustable utility box
- Modular design allows the use of 40+ accessories
- IEC 60601 tested for tip resistance

CONCEALED CABLE MANAGEMENT

Cable channel allows for discreet routing of cables between devices and utility box.

MODULAR DESIGN

Customize your cart to your exact needs with over 40 peripheral and accessory options

SMALL FOOTPRINT

Weighted, small footprint, base takes up minimal floor space while maintaining a sturdy and stable foundation

Tryten™ S-Series FEATURES & MODELS

CONVENIENT POWER STORAGE

Large, height-adjustable utility box provides power points for plugging in devices

DEVICE SECURITY

Secure mounting options for tablets or lightweight monitors

COMFORTABLE, EASY USE

Ergonomic design reduces strain and fatigue allowing for comfortable use

Tryten™ P-Series MONITOR & TABLET CARTS

The Tryten P-Series Monitor and Tablet Carts deliver a stable, versatile platform for virtual care and clinical workflows. With reinforced bases, larger columns, and clean cable management, the P-Series supports lightweight tablets to larger monitors while accommodating a wide range of accessories. Designed for ergonomic comfort and smooth mobility, each P-Series cart fits easily into tight care spaces and adapts to a range of workflow needs.

- Weighted, small footprint base
- Whisper-quiet, non-marking, lockable wheels
- Concealed cable management
- Medical-grade, wipeable components
- Large, height-adjustable utility box
- Modular design allows the use of 40+ accessories
- IEC 60601 tested for tip resistance

ENHANCED CABLE MANAGEMENT

With a 60% wider column than the S-Series, the P-Series allows for increased cable management and more accessories.

14" ARTICULATING ARM

Long 14" articulating arm provides a height-adjustable, extended reach for optimal user experience.

INCREASED STABILITY

The P-Series base is 21% larger and 55% heavier than the S-Series, improving stability for heavier peripherals and accessories while maintaining mobility and accessibility.

AX Series Arm

The AX Series Arm lets you select the combination of components to build your ideal health IT workstation. When price and value matter most, the AX Series provides improved ease-of-use and ensures an efficient EHR process at the point-of-care.

- Provides effortless use through a flexible range of motion, while supporting patient interaction at the bedside
- Independent vertical keyboard adjustment allows variable space between hand position and monitor
- Fully configurable with articulating and optional fixed arm components
- Lightweight aluminum with hardened finish withstands the rigors of healthcare environments
- Slim profile when stowed for care settings that require compact and functional workstations

AX SERIES ARM
With Monitor Extender

AX SERIES ARM
With Keyboard Extender

General Specifications:

- Standard VESA 75mm, 100mm
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment
- 180° range of lateral motion
- Monitor or keyboard tray tilt in 90° positive or 20° negative direction
- Slim profile under 8" when stowed

Optional Accessories:

- 18" Extender Arm (not available with 16" wall track)
- 20" x 11.5" work surface
- Rotation limiter

Fluid™ Wall Arms

The Fluid ULT Wall Arm gives clinicians the opportunity to document while staying fully engaged with the patient.

With smooth, stable positioning, expansive reach, and support for up to 35 lbs of technology, the Fluid wall arm offers an ergonomic workstation that adjusts easily to fit any care interaction, seated or standing. The Fluid ULT arm supports a total weight capacity up to 20 pounds, while the Fluid UHD supports up to 35 pounds.

EASY TO ORGANIZE

Expansive work surface with left/right mouse surface and enclosed keyboard storage

MAXIMUM EXTENSION

Optional extension arm provides up to 62" of reach that allows closer patient engagement

EASY TO ADJUST

22" in vertical arm adjustment with 180° independent monitor and keyboard rotation

- Independent monitor and keyboard rotation of 180°
- 22" in vertical arm adjustment with increased lower range supports seated or standing patient interactions
- For maximum extension, an optional extension arm to provide 62" of reach into care environment
- Slim profile under 9.5" when stored to maximize space
- Allow for mounting onto previously installed industry compatible tracks or supplied 34" track

General Specifications:

- Monitor mount standards: VESA 75mm, 100mm
- Keyboard pivot range: 180°
- Monitor rotation range: 180°
- Monitor tilt range: >40° (101.6 cm)
- Vertical monitor adjust: 9.5" (24.13 cm)
- Vertical arm adjust: 22" (55.88 cm)
- Weight capacity:
 - ULT up to 20 lbs (9.07 kg)
 - UHD up to 35 lbs (15.87 kg)
- Work surface size: 11.25" x 22" (28.57 x 55.88 cm)
- Mouse surface size: 8.5" x 9.65" Left/Right (21.59 x 24.51 cm)
- Keyboard tray size: 8.75" x 18.5" (22.22 x 46.99 cm)
- Storage profile: <9.5" (86.36 or 121.92 cm)
- 34" or 48" track options (86.36 or 121.92 cm)

Tandem Arm™ & Slim Line

The Tandem Arm and Slim Line redefine wall-mounted workstations. With dual arms that move in tandem, the Tandem Arm provides superior stability and range of motion; while the work surface facilitates med preparation and supply accessibility. The Slim Line provides a compact solution for discreet computer access and is easily adjusted for sitting or standing use.

- Dual pivot points on the Tandem Arm maximize rotational range of motion
- Generous 21.5" w x 11" d work surface with spill retaining lip
- Task light with auto shut-off illuminates the work surface for nighttime use
- Position height adjustment facilitates sit to stand interaction
- Locked position height adjustability ensures stability and eliminates movement
- Trim-line profile when stored

LIGHTED WORKSURFACE

Specialty Carts

Registration Cart

Configure Trio or M38e for a flexible, mobile workstation that enables you to move easily from one patient room to another. Both platforms feature a large work surface, with a slide out extension for additional work space. Multiple drawer and bin options provide ample storage and smart organization of supplies. Choose from an array of accessories to best accommodate your choice of printers, scanners and electronic signature pads.

Features

- Large work surface with rear utility bins and expandable surface feature
- Configurable with scanner mounts and printer shelves to meet patient registration workflow needs
- Choose from manual or electronic height adjustment
- Slim profile for tight care settings and ease of mobility

CareLink™ Telemedicine Cart

The CareLink Telemedicine Cart is designed to enable video communication and the use of diagnostic peripherals facilitating virtual care and timely diagnostics. CareLink connects doctors to remote patients in real time, increasing the access and timeliness to care.

Features

- Offers I/O Pod plug-n-play capabilities to integrate medical peripheral cameras and scopes
- Ventilated storage cabinet for housing PCs or Codecs
- Optional storage drawer for diagnostic peripherals
- Optional mounts for video or web camera above the monitor
- Supports single or dual monitor configurations
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management

Telepresence Cart

Equip the Trio or M38e workstation to enable video communication and enhance telehealth workflow with real-time consultation, connecting doctors with remote patients in real time, increasing access and timeliness to care.

Features

- Optional mounts for video or web camera above the monitor
- Optional I/O Pod for integrating peripherals
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- Large work area with expandable surface feature

CareLink™ Telepresence Cart

The CareLink Telepresence cart is equipped to enable video communication to enhance your workflow with real-time consultations. This innovative telehealth workstation accommodates your choice of video conferencing technology enabling doctors and clinicians to connect with their patients.

Features

- Optional I/O Pod for integrating peripherals
- Optional mounts for video or web camera above the monitor
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management

Storage Options
