

Rising screen time calls for advanced blue light protection.

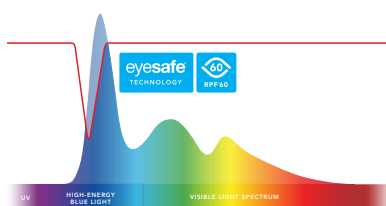

Kensington has partnered with Eyesafe, the global leader in blue light mitigating technology, to introduce privacy screens that combine the benefits of Eyesafe Blue Light Technology with enhanced privacy screen features.

Superior Color

Eyesafe® Blue Light technology reduces high-energy blue light while maintaining color performance and luminance.

Advanced technology. Advanced protection.

Patented Eyesafe technology reduces peak levels of high energy blue light to support visual comfort, and provides the same benefits of our standard privacy screens.

Developed with Doctors

Developed with input from the Eyesafe Vision Health Advisory Board, a group of leading optometrists and ophthalmologists from across the globe.

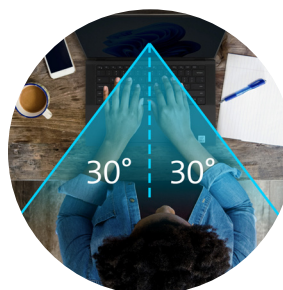

Other Standard Privacy Screen Filter Features

Anti-Reflective Coating

Reversible Viewing

Limited Viewing Angle

Military-Grade Protection
