Make IAM the center of your cybersecurity strategy!

Transform your cybersecurity with a trusted identity fabric

Why One Identity

- ***Built-in AI capabilities***
  AI empowers actionable insights and predictions
- ***Lower TCO:***
  One vendor for support and integrated solutions
- ***Streamline support:***
  Single point of contact
- **Accelerate time to value:**
  Start anywhere with any use case

Quick facts

- *80 of the Fortune 100 as customers*
- *11,000+ enterprise customers*
- *500+ million identities actively managed*
- *1,300+ partners worldwide*
- *50 enterprise- and consumer-grade products*
- *20+ years serving some of the largest and most demanding organizations around the globe*

Our Perspective

One Identity provides modern identity solutions essential in an era marked by the proliferation of human and machine identities, rapid migration to the cloud and the rise of remote work.

One Identity has embraced AI not as an add-on, but as a core part of our identity and access management (IAM) solutions. We've made AI a native capability across multiple world-class offerings so customers and partners can reduce complexity, boost efficiency and make more informed decisions.

By reining in identity sprawl and extending governance across your entire enterprise, this holistic approach simplifies identity management, reduces misconfigurations and cuts down on maintenance costs. The result is a better user experience and a unified identity strategy that scales with your business.

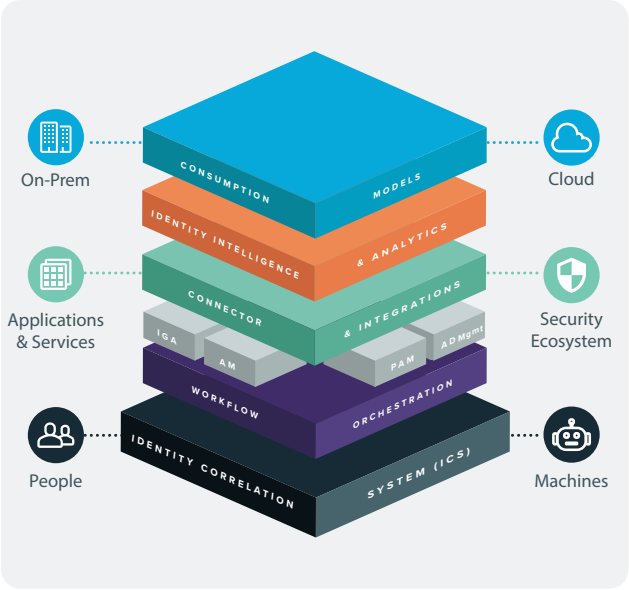
Organizations today rely on a mix of cloud, on-premises and legacy systems. Yet, these disparate tools often fail to work together. The One Identity Fabric addresses this challenge by interconnecting all your IAM solutions – eliminating fragmentation and providing a unified view of identities and access across your infrastructure. See how you can unify your identity security strategy, across on-prem, hybrid and cloud systems, with the One Identity Fabric.

This modular and integrated approach to identity security provides functionality to address identity governance and administration (IGA), access management (AM), privileged access management (PAM), and Active Directory management (AD Mgmt).

One Identity Fabric

The One Identity Fabric isn't just a solution – it's an ecosystem that seamlessly connects previously siloed identity tools and unifies your entire identity and access management (IAM) framework.

The One Identity Fabric integrates key IAM capabilities into one cohesive solution, providing both security and operational efficiency. With seamless data synchronization and communication, administrators can consistently manage security controls across all systems, whether cloud-based or legacy. One Identity Fabric lets you start where you need and scale as you grow.



Industry Recognition

- One Identity named 2025 CRN Channel Chief
- 2024 OneLogin named an overall Product and Market Leader by KuppingerCole
- 2024 Hot Company for PAM in Top InfoSec Innovator Awards
- 2024 KuppingerCole Leadership Compass for Identity Governance and Administration
- 2024 KuppingerCole Passwordless Authentication for Consumers Leadership Compass
- 2024 5 Star rating in CRN Partner Program Guide
- Leader 2024 KuppingerCole Identity Fabrics report
- 2023 Safeguard EMA Radar report for Privileged Access Management
- 2023 One Identity Safeguard named a PeerSpot Rising Star

About One Identity

One Identity helps organizations strengthen cybersecurity, boost efficiency and control costs through the One Identity Fabric, a holistic approach to identity and access management (IAM). By unifying IAM tools, including identity governance and administration (IGA), access management (AM), privileged access management (PAM), and Active Directory management (AD Mgmt), it ensures optimal functionality and efficiency. This cohesive structure reduces identity sprawl and extends governance to the farthest endpoints of your IAM ecosystem. Proven and trusted on a global scale, One Identity manages more than 500 million identities for more than 11,000 organizations worldwide. For more information, visit www.oneidentity.com.
