WE GET
CLOUD EXPENSES
CAN BE COMPLEX.

CDW Amplified™ Hybrid Cloud
Managed Services for Azure — Basic

Managing an ever-evolving cloud environment requires specialized skills. Comprehensive next-generation Managed Services for Azure are backed by decades of managed services support experience. CDW's approach to Azure cloud management allows you to select the service tier (Basic, Essential or Premium) that best supports your business goals and current capabilities. Our approach is flexible and can grow as business needs grow. Enlisting CDW, a proven and trusted partner, can make it easier to keep your business operating optimally.

Managed Services for Azure — Basic can help you achieve:

Operational Efficiencies

Reduced Risk

Increased Performance

Managing the Right Solution

Take the first step in building and managing your cloud environment. The Basic tier helps you manage your cloud environment efficiently and transparently via one portal. CDW's portal provides actionable data for cost management, operational management and governance. We can help your business make the most out of your Azure investment. The portal saves you time and money by giving you visibility into your public cloud spending by cost center, department, or business unit. By using Azure tagging functionality, all reporting can be customized to meet your business needs. CDW brings clarity to Azure.

What we deliver with Managed Services for Azure – Basic:

· Multi-Cloud Portal (Azure, AWS, Google)

· Detailed dashboards — predefined or customized views based on the role (finance, development, engineering, etc.)

· Cost, usage and performance reports generated by Azure resource to optimize your cloud costs

· Real-time dynamic reporting

· 13 months of data for trending

· Email based alerting when thresholds are met

· Health Check reports on potential cost savings or improperly configured resources

· Rightsizing reports (VM, SQL)

· Governance policies with automated actions

· Assistance in setting up your Azure environment via our LaunchPad Services

· EA burndown balance

· CIS best practices and recommendations

All of the above features are available in the Essential and Premium tiers.

CDW GETS MICROSOFT AZURE

CDW is an end-to-end provider of cloud applications, solutions and services for public, private and hybrid cloud environments.
