

Monitoring & Dispatch Service

Let APC handle everything.

Monitoring & Dispatch Service is a completely hands-off solution that includes 24/7 proactive monitoring of network-connected UPS (any brand) and PDU units via APC's award-winning EcoStruxure Asset Advisor, as well as on-site service by APC technicians—parts and labor included.

Starting at only \$73/year per device, avoid the heavy lifting and give your IT staff peace of mind by letting APC manage your distributed IT more efficiently.

Visit ecostruxureit.com/monitoring-dispatch today to learn more!
