

CDW Canada Services for Apple

1. Apple Readiness Review:

Unlock the full potential of Apple technology with expert guidance from CDW. Our engagement covers procurement, connectivity, device posture, productivity and lifecycle. A short questionnaire helps us tailor support to your goals.

Key Benefits:

- Business-aligned Apple strategy
- Actionable recommendations and best practices
- Comprehensive report with next steps
- Enhanced security, stability and scalability

2. Apple Health Check:

CDW's Apple Health Check provides a strategic assessment of your Apple environment, focusing on key areas including procurement, connectivity, device posture, productivity and technology ifecycle. Delivered through collaborative sessions between a CDW solution architect and your IT team, this engagement offers:

Key Benefits:

- A comprehensive review of current and future-state Apple infrastructure
- Optimization of device purchasing, enrollment, configuration and maintenance
- In-depth MDM walkthrough and evaluation
- Actionable reporting to guide next steps and improvements

3. Apple Device Optimization

CDW will assess and enhance your Apple MDM environment based on Apple Health Check recommendations – ensuring secure, streamlined and compliant device management.

Key Benefits:

- Improved Apple enrollment (ABM/ASM)
- Optimized MDM configuration
- Stronger compliance & policy controls
- Simplified app deployment
- Automated patching

4. Jamf Setup & Enrollment by CDW

Simplify Apple device management with CDW's expert Jamf onboarding. We configure key components to ensure secure, streamlined deployment – whether you're using Jamf School, Jamf Pro or Jamf Connect.

Key Benefits:

- Jamf solution tailored to your environment
- Apple Business Manager integration
- Automated & user-based device enrollment
- Policy, profile and patch management
