

On-Premises Virtualized Workload to AWS Native Migration

Cloud

SERVICE OVERVIEW

Migrating from on-premises hypervisors to AWS is a strategic move that offers substantial benefits, including great scalability, cost savings and access to advanced technologies. While AWS provides specialized tools and extensive capabilities to assist with your migration, a move to the AWS cloud can still be quite complex. Leveraging an AWS partner, like CDW, is helpful to migrate more efficiently and position your business for future growth and success in the cloud.

Such migration is a significant undertaking that requires meticulous planning and execution.

It's important to employ a comprehensive strategy designed to ensure a smooth, secure and efficient migration process. Our recommended approach focuses on security, minimizing downtime and optimizing performance throughout the migration journey.

SERVICE FEATURES

- Landing zone in AWS
- Design session for the AWS environment
- Migration planning
- Migration of the environment

WHAT WE DO

All steps will be coordinated with the customer to make the migration as easy as possible while focusing on the security posture of the environment to safeguard the AWS environment.

PREREQUISITES

- Required security vendor to plan the security the same way in AWS as on-premises
- Login access to the network, servers or storage devices. The client will provide required login rights (e.g. username, passwords, authentication tokens, etc.)
- Access to the AWS account to build and design the environment
- Any required tooling access

EXCLUSIONS

- Any assessment of the environments

WHY CDW?

The migration from on-premise hypervisors to AWS is more than a technical upgrade; it's a strategic enhancement that transforms how businesses operate in the digital age. By leveraging AWS's powerful capabilities, businesses can realize the full potential of their cloud investments, achieving greater agility, efficiency, and innovation. For businesses considering the migration to AWS, partnering with an experienced provider like CDW will ensure a smooth and successful transition..
