WE GET YOU NEED
A MODERN APPROACH
TO YOUR BACKUP.

## CDW Amplified™ Hybrid Cloud
AWS Offsite Storage for Veeam

The lifeblood of your organization is information. Ensuring the integrity of that information is a critical element to the success of your business. Best practice for data integrity is the 3–2–1 approach — three copies of your data, on two different media, with one offsite. With CDW, Veeam and AWS, you get the best of 3–2–1. The quality and reputation of Veeam and the world's No. 1 public cloud storage with AWS.

CDW's AWS Offsite Storage for Veeam service can help you achieve:

Operational Efficiencies

Reliability

Reduced Risk

Orchestrating the Right Solution

CDW connects your Veeam backup environment to the cloud, providing you with a simplified offsite backup and archival solution. We analyze your data and create lifecycle policies that automatically move data from on-premises to the cloud with the ability to provide simultaneous backups in both locations. This not only helps with disaster recovery and data integrity but can help save your organization money. In addition, CDW sets you up to follow the 3–2–1 backup best practices.

Data Sources | Performance Tier (Short-term Storage) | Capacity Tier (Long-term Storage)
