

JUMPSTART FOR AWS CLOUD

Cloud

Looking to build an initial AWS environment that can be used for development, testing and/or production? Let CDW give you an unfair advantage. The experts at CDW will set you on the right path for your AWS cloud journey, allowing you to gain the cost savings and competitive advantages AWS can offer.

CDW's Jumpstart for AWS can help you achieve:

Cost Reduction

Agility

Reliability

ORCHESTRATING THE RIGHT SOLUTION

CDW helps you design, plan and build your initial AWS environment following the principals of a well-architected framework. This ensures your environment meets operational excellence, security, reliability, performance efficiency and cost optimization – allowing you to grow and scale as your business grows. Upon implementation, CDW provides you with a full knowledge transfer, giving you and your company all the tools you need to be successful in deploying future workloads in AWS.

CDW's Jumpstart for AWS provides a number of benefits:

Our AWS-certified engineers have the experience to design and build your AWS environment.

The CDW Jumpstart of AWS allows you to take advantage of all the benefits associated with AWS public cloud immediately.

The service includes full verification of implemented configuration.

Most important, having the right environment will help you keep costs down and security tight.

CDW's full lifecycle of services can support your business no matter where you are on your journey

CDW GETS AWS

Growth in cloud-based services and infrastructure means organizations are finding it harder to plan and implement complex technology, especially in the cloud. CDW's Professional Services will help you adopt and integrate AWS securely. CDW has achieved multiple AWS certifications and is one of a handful of Advanced Consulting Partners.

VALUE MAP

\$

Cost Savings

Reduction or elimination of infrastructure costs

Infrastructure on AWS	Reduction in overall spend
<12%	14.3%
12-25%	25.2%
25%+	29.1%

People who come to the conclusion that the cloud is too expensive are doing something wrong
Larry Carvalho & Matthew Marden, IDC, 2019

Staff Productivity

Free teams to work on higher value activities

50% Reduction in traditional IT tasks

10x Projects supported with same size staff

Actual data from AWS customer, Live Nation

Operational Resilience

Enhanced performance by reducing unplanned outage

43% Reduction in overall incidents

36.1% Reduction in security incidents

Business Agility

Accelerated time to market, new feature deployment

10x Increase in experiments

When you know you have the ability to quickly deprovision, it makes you bolder to say "yes" and try new things
Larry Carvalho & Matthew Marden, IDC, 2019

90%+ Business user satisfaction
