# IDENTIFY WHAT MATTERS

## Recognition of Everyone and Everything, for Greater Freedom.

Making it possible to identify people and assets—that means opening up endless possibilities. It means helping to create a more open and secure world. It means making it possible for everyone to fully enjoy their freedom, with more flexibility, ease, and harmony.

**It is with this in mind that we develop and manufacture our identification solutions and card personalization systems. This capacity for development, combined with our industrial know-how, is what enables us to assert our position as world leader today.**

**360**  
employees

**400**  
distributors  
in 140 countries

**7**  
branches  
worldwide

**84.4**  
million euros  
turnover

**700**  
million cards  
personalized  
by our clients each  
year

**30**  
% of our global  
activity comes from  
tailor-made  
solutions

### French manufacturer

Evolis embodies the best of "Made In France": quality, flexibility, and excellence.

## SOLUTIONS ON OFFER

### Identifying People and Assets That Matter With Ease

The ease of use and the quality of our solutions have made us the leader in instant issuance of personalized cards.

This strength is also based on the range of products that we offer.

#### SOLUTIONS ADAPTED TO ALL MARKETS

Healthcare professional badges, patient badges
- **TRANSPORTATION**  
Transportation tickets
- **RETAIL**  
Loyalty cards, gift cards, price tags
- **HOTEL & LEISURE**  
Buffet labels, theme park passes, room keys

# INSTANT ISSUANCE

## Your Cards, Here and Now

Here is what instant issuance offers: personalization and printing of your cards at your premises, right away.

For an easier life.

### RESPONSIVENESS

No sooner requested than printed: each personalized card is delivered immediately to its new holder.

### FLEXIBILITY

Your solution is there for you to use as you wish. Do you need to offer different card designs? Have new information to add? A single card to print? Or perhaps, on the contrary, you need to issue cards in batches? Anything is possible.

### SECURITY

The personal data used to personalize the cards remain under your control and never leave your computer system.

### ECONOMY

Great savings compared to outsourced printing (no minimum order, no shipping costs, etc.). The necessary equipment therefore quickly pays for itself.

### BRAND IMAGE

This service is perceived very positively by future cardholders: no waiting, convenient to replace a card in an emergency (lost, stolen), high quality final product.

# GRAPHIC AND ELECTRICAL PERSONALIZATION

## Endless Possibilities for Personalization

Our solutions encapsulate multiple technologies. They can customize a card entirely and provide it with all the features you opt for. And all in a matter of seconds.

“Various personalization options that can be perfectly combined with each other.”

### Design

Get exactly the design you envisaged (color/monochrome printing, single/double-sided, texts, photos, logos, QR code, etc.).

### Personal data

Make the card unique and personal, individually or in batches based on your own database (photo, name, date, etc.).

### Durability

Extend the life of the card with protective films.

### Security

Optimize the security of the card with specific lamination films and holograms.

### Encoding

Data can be encoded in a contact or contactless chip or amagnetic strip.

# VERSATILE PROFESSIONAL CARD PRINTERS

## Personalization and Printing of Cards in Seconds

Our range of card printers covers all types of needs, from the simplest to the most specific.

### WHAT IS COMMON TO THEM ALL? Their ease of installation and use, and their scalability.

Whichever solution you prefer, you are sure to make the right choice. Our printers integrate with all IT systems and are very intuitive to use.

Do you need superior security features for your cards? Greater issuance capacities? Or a new feature? **Our solutions evolve with your needs thanks to numerous options that can be installed directly on site.** This scalability guarantees the optimum cost-effectiveness of your Evolis solution.

### WHAT MAKES THEM DIFFERENT? The level of personalization, the print volume, and the lifespan of the card.

To determine your needs, you should ask yourself these three questions: What personalization elements are to be applied to the cards to be issued? How many cards do you estimate you will print per year? How long do they need to last?

# ALL-IN-ONE SOLUTIONS

## Everything is Included!

From our experience in the field, we observed that many professionals are using amateur means to create their badges and labels, often for lack of an accessible and practical alternative solution.

So how can we help them to make these items in a simple and professional way? That's how our all-in-one solutions came about.

“ Accessible and practical solutions. ”

# badgy

## **BADGY** FOR ALL SMALL AND MEDIUM-SIZED ESTABLISHMENTS

**Versatile solution to print all your cards in a few clicks:**

- Wide choice of templates, available via the dedicated software and the online card library
- Many possible applications: employee badges, student cards, membership cards, loyalty cards, etc.

# edikio

## **EDIKIO** DEDICATED TO RETAIL BUSINESSES AND THE HOTEL AND RESTAURANT INDUSTRY

**Solution designed especially for specific labeling needs:**

- Software with price tag and buffet label templates.
- Easy-to-clean black cards especially for the food industry with white printing ribbon. Other cards and ribbons optionally available.
- Wide range of optional accessories for an attractive arrangement of the labels.

# TAILOR-MADE SUPPORT

## The Agility of a Start-Up, The Strength of an International Group

Exceptional responsiveness and readiness to meet your needs—this is the strength of our team dedicated to tailor-made projects.

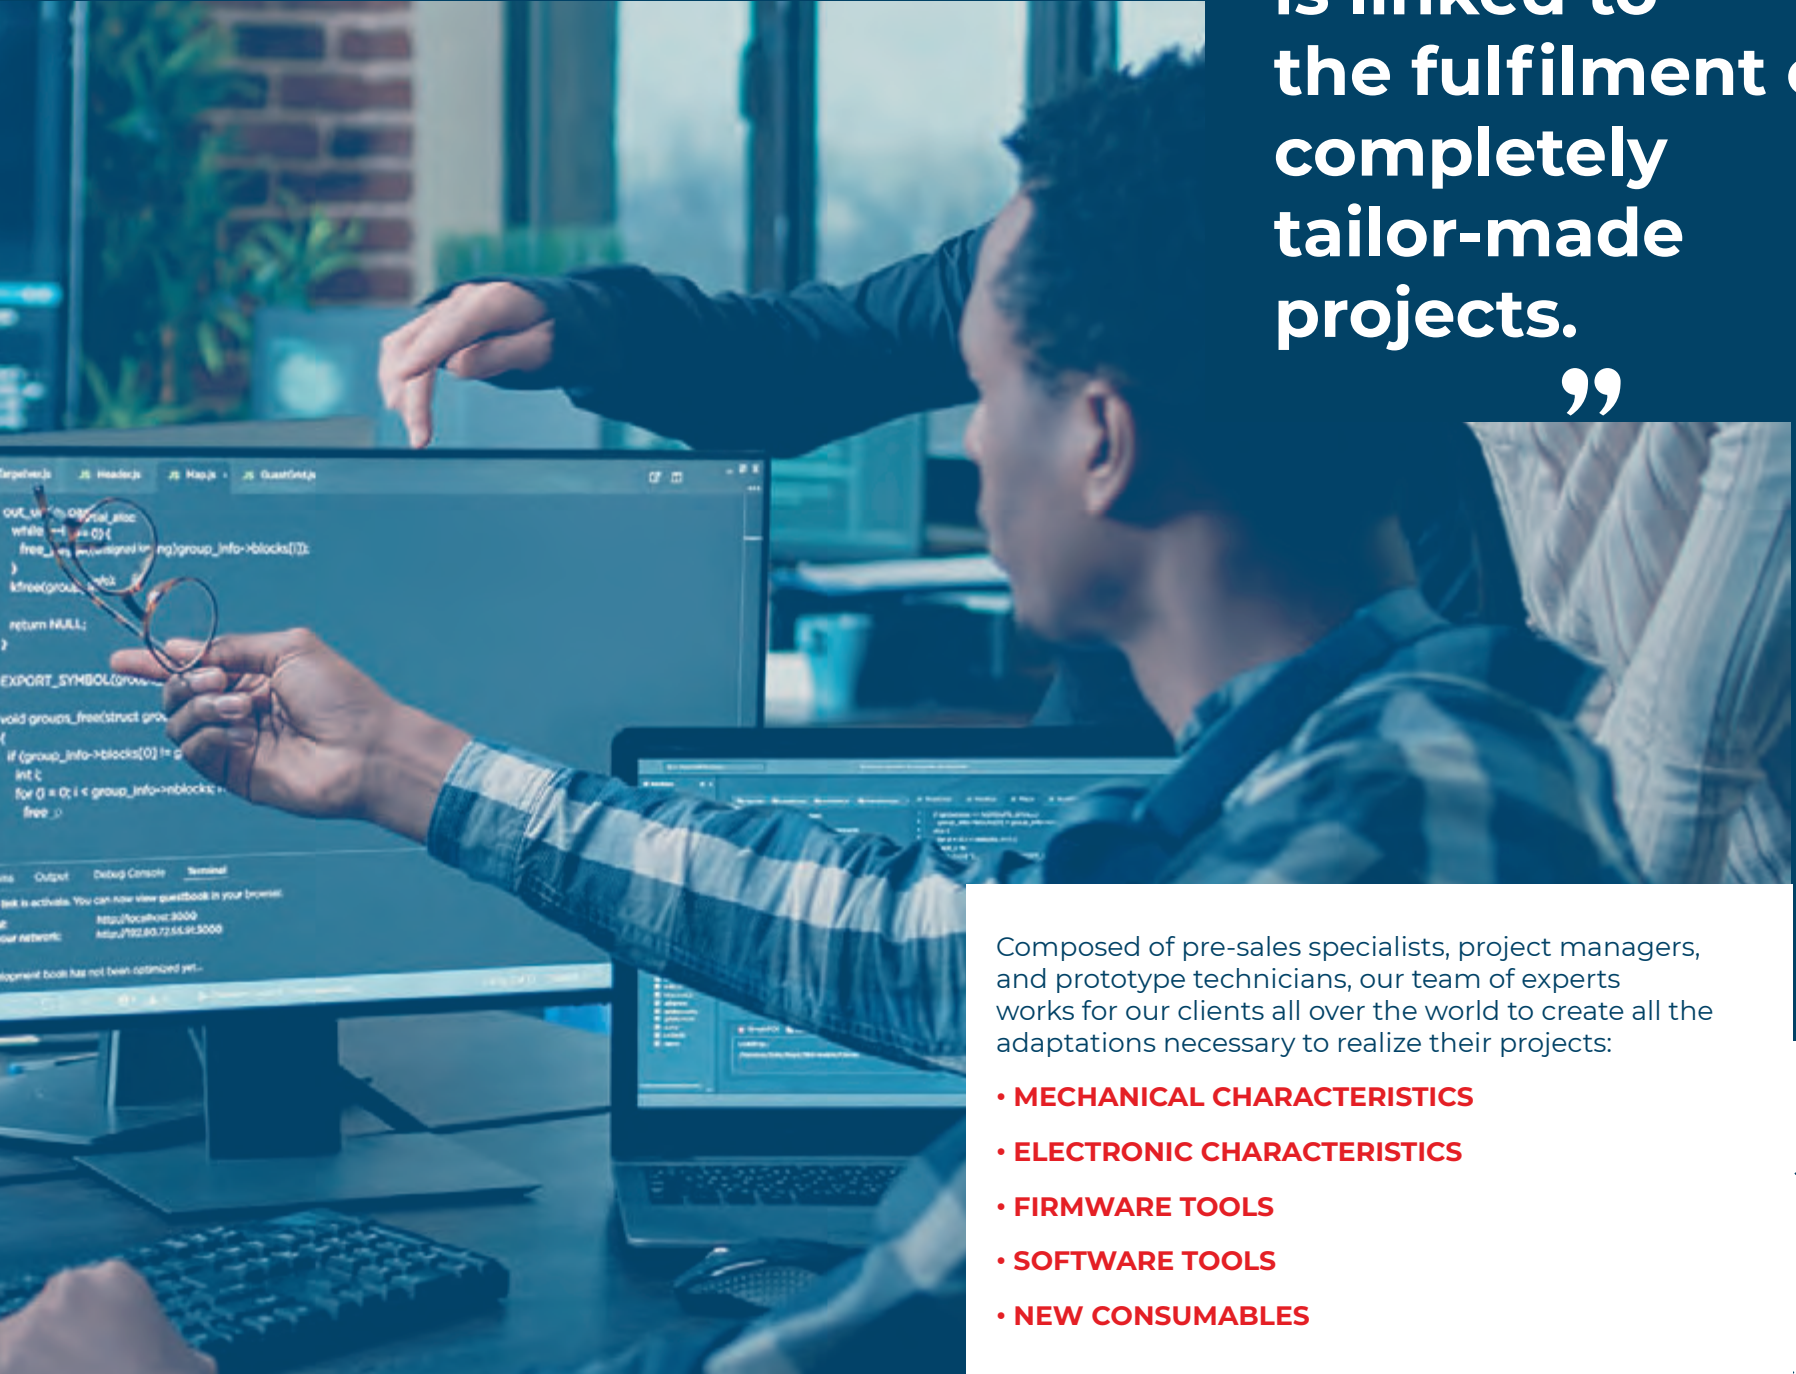

As well as developing standard solutions, **we respond to the most specific projects, according to your constraints.**

The start-up spirit of this team allows it to innovate and successfully carry out all the projects entrusted to it. And when you combine this with the industrial and commercial strength of a group like Evolis, what seemed impossible becomes possible.

“ 30% of our global turnover is linked to the fulfilment of completely tailor-made projects. ”

Composed of pre-sales specialists, project managers, and prototype technicians, our team of experts works for our clients all over the world to create all the adaptations necessary to realize their projects:

- MECHANICAL CHARACTERISTICS
- ELECTRONIC CHARACTERISTICS
- FIRMWARE TOOLS
- SOFTWARE TOOLS
- NEW CONSUMABLES

## SPECIFIC BANKING SOLUTIONS

### Responding to The Challenges of Banks for The Instant Issuance of Bank Cards

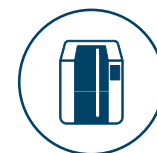

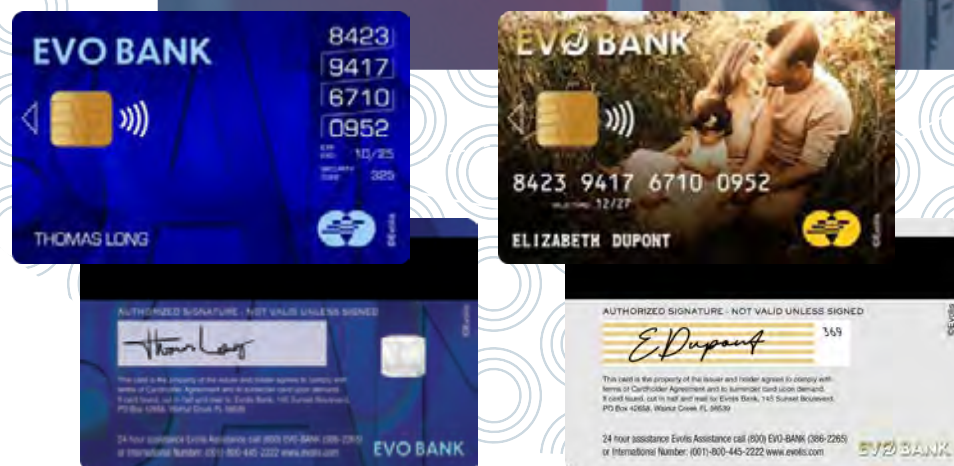

Our expertise allows us to offer a range for banks that is perfectly adapted to the specific needs of this market, and so to successfully carry out all bank card instant issuance projects.

Evolis card printers offer a very high level of responsiveness and personalization for the creation of all types of bank cards that, by tomorrow, will be in the hands of consumers.

“ A banking range perfectly adapted to the needs of this market. ”

To achieve this mission, we collaborate with key players in the instant issuance of bank cards (system integrators, software publishers, card manufacturers, etc.) all over the world.

Evolis card printers represent the largest number of printers installed in bank branches. **This makes us the leader in this market.**

**+90,000**  
printers delivered

**50**  
countries

**+1500**  
financial institutions

# CARD PRINTERS FOR SELF-SERVICE KIOSKS

# SOFTWARE SOLUTIONS

## For a Service Accessible 24 Hours a Day, 7 Days a Week

More and more sectors are seeing the benefits of self-service terminals. As genuine points of contact with consumers, they make it possible to increase the quality of service offered and to rationalize certain operating costs.

## User Experience as A Priority

Evolis teams develop the software solutions themselves so that you can benefit from our products in optimal conditions.

Evolis software solutions are user-experience oriented and also designed to facilitate the integration of our products into all IT systems. This means that they fit perfectly with the applications our customers already have in place and help to create an intuitive, optimized work environment.

“ From printer management to card personalization, Evolis software guarantees the best conditions of use. ”

To provide an optimum customer experience, these terminals can offer a service for issuing cards of any kind. This is where Evolis comes in: our range of dedicated solutions can be adapted to all needs, depending on the required autonomy, the integration constraints, and the level of card personalization desired.

- Evolis Premium Suite, the software suite for easily managing and setting up Evolis printers.
- Card personalization software for all markets.
- Business software range for producing personalized cards and labels.
- Software Development Kit (SDK), the toolbox for developers and integrators.

## RIBBONS, CARDS, AND CLEANING KITS

### Personalize. Protect. Secure

These are the three functions of **Evolis High Trust®** consumables. With more than 150 card, ribbon, and cleaning-kit products, our range of consumables opens up a huge range of possibilities.

#### DESIGN

Card format and color, printing color... the only limit is your creativity!

#### PROTECTION

Specific ribbons to increase the durability of your cards.

By choosing products bearing the **Evolis High Trust®** label, you guarantee an optimal printing quality and service life of your Evolis printer.

**EVOLIS  
HIGH TRUST®**

#### SECURITY

Apply the appropriate security level to your cards.

#### SERVICING

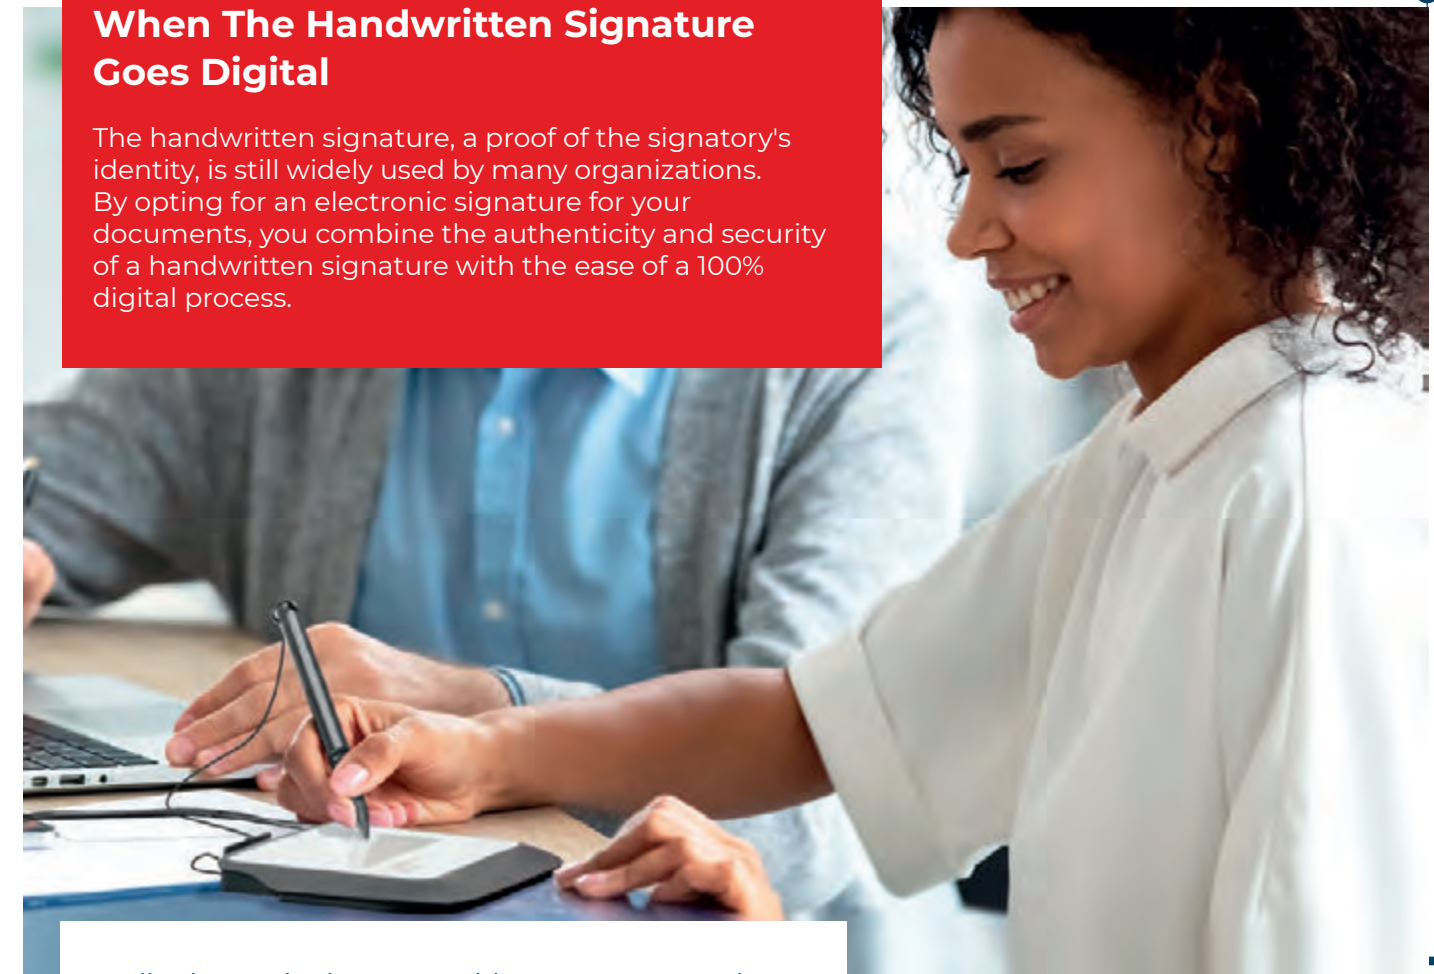

Take care of your printer to optimize its performance with the help of cleaning kits.

## ELECTRONIC SIGNATURE TABLETS

### When The Handwritten Signature Goes Digital

The handwritten signature, a proof of the signatory's identity, is still widely used by many organizations. By opting for an electronic signature for your documents, you combine the authenticity and security of a handwritten signature with the ease of a 100% digital process.

Evolis electronic signature tablets are secure and easy to use. They offer various tablet technologies and software solutions to facilitate and secure the electronic signature process. In particular:

- Capture of the signature in high definition and of associated biometric data
- Advanced encryption of data transfer to the computer
- Automation of the life cycle of the signed document: distribution, storage, archiving.

Many procedures require handwritten signatures, as is the case for contracts or the handing over of a bank card for example.
