

Workforce Experience Platform

Intelligence that drives the workforce experience.

Enjoy direct access to your employee experiences, IT management functions, and device intelligence² - all from a single platform.¹

At HP, we use AI and machine learning (ML) to compare real-time device performance and usage across PC, Print, Collaboration, and Security - HP uses this intelligence to anticipate emerging trends that affect employee productivity, turning these insights into actions.

With an AI-powered analytics platform at your fingertips, IT can leverage these insights² to enable dynamic multi-OS device management across your workforce, improve the return on IT investments through proactive remediation, and identify strategies to increase employee engagement. That's an investment you can't afford not to make.

These insights simplify the management of IT resources and help reduce digital friction for your employees, empowering businesses to elevate the employee experience and keep your people productive and engaged from anywhere. When your people thrive, so does the business.

Unleash the full potential of your workforce.

Predict potential failures before they have an impact.

Stay ahead of potential disruptions to your business with detailed analytics² and notifications to help predict emerging device issues and failures, resulting in employee downtime.

Act on insights to boost workforce performance.

Improve employee performance and business operations by monitoring device health, performance, and security and addressing any needs based on actionable insights and analytics.²

Save on costs and resourcing with simplified processes.

Enable IT with automated processes and easy-to-use tools to take preventative measures and help reduce support costs and resources required to maintain employee efficiency.

¹ The Workforce Experience platform is for commercial customers and requires registration. To register for access, visit <https://admin.hp.com>. Some features and capabilities may require additional purchase of HP services and/or commercial hardware capable of supporting the HP Insights agent for Windows, Mac, & Android. Activation and restrictions may apply.

² Select HP Workforce Solutions require an HP Insights agent for Windows, Mac, & Android, available for download at <https://admin.hp.com/software>. For full system requirements and services that require the agent, please visit <https://admin.hp.com/requirements>. The agent collects telemetry and analytics around devices and applications that integrate into the Workforce Experience platform and is not sold as a standalone service. Internet access with connection to the Workforce Experience platform is required. HP follows stringent GDPR privacy regulations, and the platform is ISO27001, ISO27701, ISO27017 and SOC2 Type2 certified for Information Security.

HP Services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service, or the HP Limited Warranty provided with your HP Product.
