

CDW CANADA SERVICES:

MICROSOFT TEAMS ASSESSMENT AND JUMPSTART

GET THE MOST OUT OF YOUR OFFICE 365 AND MICROSOFT TEAMS INVESTMENT

Organizations are considering the Microsoft Teams collaboration platform unlike any other technology in recent history. For many organizations, the path forward or positioning Microsoft Teams can be quite daunting. Microsoft Teams brings a tremendous opportunity to increase a company's collaboration agility with a multi-generational workforce. This opportunity requires an internal evaluation of how Microsoft Teams can fit within your organization and the associated critical decisions to maximize success.

WHAT CAN CDW DO FOR ME?

The Microsoft Teams Assessment and Jumpstart can dramatically increase your organization's comfort and understanding of Microsoft Teams with a focus on maximizing its effective use and adoption. This engagement will work with business decision-makers (BDMs) and key leadership on the industry best practices and how best to utilize Microsoft Teams as an innovative collaboration and productivity platform. This engagement is best positioned for organizations who have yet to deploy Microsoft Teams or have minimally deployed a single Office 365 workload. It is not intended to be a complete design or planning solution.

The engagement will be broken up into several segments, during which we will:

- Assess the company's ability to leverage this innovative technology from Microsoft
- Identify desired business outcomes through Microsoft Teams
- Gain a holistic view of your future state by reviewing capabilities across security, teamwork, meetings and change management
- Review critical areas where the business or IT will need direction or future assistance to ensure success
- Deliver an actionable plan which will assist you on your transformation journey
- Provide a single proof of concept (POC) team/channel for the business to use

This service will result in the development of a clear point-in-time or strategic vision of the organization's next steps with Microsoft Teams. We will share our knowledge of industry-leading practices on the administration, operation and configuration of Microsoft Teams within the business narrative.

THE BENEFITS

- Understand what success looks like for you and define your success criteria
- Identify the unique vision, needs and goals of your business
- Build deeper engagement with your business stakeholders
- Demonstrate "art of the possible" as it applies to your business
- Support your digital transformation journey for internal communication and collaboration
- Actionable roadmap for Microsoft Teams
- Adoption and Change Management (ACM) enablement

WHY CDW?

CDW Canada is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
