

Threat Protection Workshop

Security

WORKSHOP HIGHLIGHTS

Review your security goals and objectives

Identify real threats and discover vulnerabilities in your environment

Map identified threats and vulnerabilities to specific solution recommendations

Develop joint plans and next steps

Do you know how many phishing attacks your organization has received? If employees are using the right password protocol? Whether personal data is being exposed? In short, is your organization's cloud environment as secure as you think it is?

IMPROVE YOUR SECURITY POSTURE WITH A THREAT PROTECTION ENGAGEMENT

Organizations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives and identify current and real threats by scheduling a Threat Protection Engagement.

We can help you develop a strategic plan customized for your organization and based on the recommendations of Microsoft experts in security. You'll gain visibility into immediate threats across email, identity and data, plus clarity and support on how to remediate vulnerabilities and upgrade your security posture for the long term.

WHY YOU SHOULD ATTEND

Given the volume and complexity of identities, data, applications, devices and infrastructure, it's essential to learn how secure your organization is right now, and how to mitigate and protect against threats moving forward. By attending this workshop, you can:

Identify current, ongoing security threats and discover vulnerabilities in your environment

Walk away with actionable next steps based on your specific needs and objectives

Document your security strategy for the benefit of key stakeholders

Better understand how to accelerate your security journey using the latest Microsoft Security tools

WHAT TO EXPECT

During this workshop, we'll partner with you to strengthen your organization's approach to cybersecurity. We'll help you better understand how to prioritize and mitigate potential attacks, with:

- Analysis of cybersecurity threats that are found targeting your organization
- Actionable recommendations to help immediately mitigate the identified threats and discovered vulnerabilities
- Gain insight into vulnerabilities within your Microsoft 365 cloud and on-premises environments to better understand, prioritize, and address vulnerabilities and misconfigurations across your organization.
- Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps
- Modular approach, allowing you to select three out of four available modules aligned to your needs and requirements

Pre-Engagement
Call

Kick-off Meeting

Cloud Application Discovery

Threats and
Vulnerabilities
Exploration

Results Presentation

Engagement
Decommissioning

WHO SHOULD ATTEND

The engagement is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- IT Security Architects
- IT Security Administrators
- IT Security Operations (Sec Ops)

WHY CDW? NO ONE GETS MICROSOFT LIKE WE DO

CDW is the industry leader in transitioning customers to Microsoft's Cloud environment. With more than 1000 customers using Microsoft Online Services and over seven years working with customers to design hosted solutions, CDW has the expertise your business requires in a Microsoft partner. As a designated "Preferred Deployment Partner", CDW can help your business seamlessly and securely move to the cloud.
