

ZERO TOUCH SERVICES

CDW and Microsoft Surface are excited to introduce Zero Touch services, an all-inclusive, nationwide offering. Help your business procure, image, configure, manage, install and dispose of IT assets for your employees through an Autopilot refresh schedule. Zero Touch Deployment uses Windows Autopilot to easily deploy Surface PC devices, while the IT department enrolls end-user devices without ever touching the devices. CDW is ready to help you leverage this opportunity, with the Microsoft Surface expertise you need, wherever you happen to need it.

MODERN WINDOWS DEPLOYMENT// THE NEW WAY

Key Benefits of Autopilot

- CDW project management of refresh lifecycle
- Forecasted inventory and delivery
- No need for IT to touch the devices for enrollment
- Simple and non-intrusive user experience
- No deployment of on-premise infrastructure
- Tightly integrated with Microsoft management stack
- Co-management, cloud-attach ready

Surface and Windows Autopilot

- Surface and Microsoft sales/support are engineered to support Autopilot deployment
- Surface ships with Microsoft Signature image with pre-installed Office apps for seamless Autopilot deployment
- Microsoft's CSP network may enroll Surface devices through automated APIs or with simplified CSV files in Partner Center
- Devices returned to Microsoft through warranty are automatically removed and updated.
- Surface is engineered to enroll in customer tenants quickly and supports managing firmware through DFCI

Better together: Surface and Microsoft 365 streamline IT administration, improve security and lower cost of ownership.
