

Copilot for Microsoft 365 Ready Workshop

Digital Workspace

IS YOUR ORGANIZATION READY FOR TAKEOFF?

Copilot for Microsoft 365 accelerates your team's productivity by acting as their AI-powered assistant, combining power from large language models (LLMs) with your business data to generate more meaningful and relevant content inside your Microsoft 365 apps.

CDW's Copilot for Microsoft 365 Ready workshop will help your business' decision-makers plan the specific route you're going to take on your Copilot for Microsoft 365 journey and visualize how long your trip will take to get to your desired destination.

Our Microsoft 365 cloud consultants will also work with your technology group to rate your current state of preparedness and measure your maturity posture to embark on your journey.

WHAT'S INCLUDED:

Two-Day Planning Workshop

A two-day workshop with business decision makers and technology group to prepare for your Copilot for Microsoft 365 pilot.

High-Impact Scenario Summary

A summary report of the high-impact scenarios you want to prioritize during your Copilot for Microsoft 365 journey for various personas and use cases.

Baseline Readiness Assessment Rating

A 24-point assessment of which organizational, technical, process and security baseline prerequisites you need to address to overcome Copilot for Microsoft 365 runway blockers.

Prioritized Scenario Roadmap

A visual 12-month roadmap of the steps you plan to take to pilot your top three Copilot for Microsoft 365 prioritized scenarios.

RELATED COPILOT WORKSHOPS:

- Introduction to Copilot for Microsoft 365: Explore all the places you could reach on your Copilot journey
- Copilot for Microsoft 365 Governance: Prepare your Microsoft 365 infrastructure, data governance, security and compliance before taking off
