

Unleash the power of Barracuda

Innovative security solutions to defend against today's cyberthreats

Safeguard today's businesses from complex threats with a comprehensive cybersecurity platform. Trusted by hundreds of thousands of global customers, Barracuda's multilayered solutions leverage advanced tech to protect email, networks, apps, and data. Robust security controls and automated incident response further ensure data protection and business continuity.

Managed XDR

Email Protection

Defend your company with the world's most comprehensive email protection, made radically easy.

Application Protection

Protect all your web apps and APIs with one comprehensive platform.

Network Protection

Secure and connect your infrastructure with the power of Barracuda Network Protection.

Data Protection

Safeguard your critical data wherever it resides to minimize downtime and prevent data loss.

Why Barracuda?

Barracuda's innovative platform delivers complete protection against complex threats for businesses of all sizes. The AI-powered BarracudaONE platform secures email, data, applications, and networks through advanced security solutions and Managed XDR, strengthening cyber resilience while simplifying management. Trusted by hundreds of thousands of businesses, Barracuda provides powerful defenses that are easy to deploy, use and manage.

Private offers available:

Explore the complete Barracuda cybersecurity platform:

BarracudaONE™

A new AI-powered cybersecurity platform designed to unify your Barracuda solutions into a centralized dashboard to maximize protection and cyber resilience — all at no additional cost.

Barracuda Email Protection™

48% of organizations experienced phishing or social engineering attacks in 2023. Defend against email-born threats with the world's most comprehensive email protection, made radically easy.

Barracuda Cloud-to-Cloud Backup™

Backup offers the best chance at recovery after an attack, making it a critical element of protecting important data such as SaaS data in Microsoft 365. Back up Microsoft 365 Teams, Groups, Exchange, SharePoint, OneDrive, and OneNote, as well as Entra ID data. Our advanced search capabilities enable users to find and recover data quickly and easily.

Barracuda Managed XDR™

Cover the blind spots in cybersecurity with Barracuda Managed XDR. It combines advanced technology with an award-winning security operations center (SOC) to provide 24/7 proactively monitoring, threat detection, and response. Detect threats earlier and respond faster with Barracuda Managed XDR, reducing malware infection resolution time from 3-4 weeks to less than one hour, for example.

Visit www.barracuda.com to learn more about the full cybersecurity platform.

Barracuda SecureEdge™

84% of organizations have been breached as a direct result of a network attack in the past 12 months. Secure and connect infrastructure with Barracuda's cloud-first SASE platform. Barracuda SecureEdge delivers enterprise-grade security including Zero Trust Network Access (ZTNA), Firewall-as-a-Service, web security, and fully integrated office connectivity with Secure SD-WAN.

Free sales tool:

Barracuda Email Threat Scanner™

See which threats are lurking in Microsoft 365 mailboxes.

Our artificial intelligence platform understands email sender intent to detect social engineering attacks. Get a comprehensive look at each email threat, broken down by time, employee, and threat type, and an overview of your domain DMARC status.
