

CDW Canada Named 2026 Canada NSP Partner of the Year by Arctic Wolf

CDW Canada recognized by global leader in cybersecurity and AI

Toronto, ON – June 8, 2026

[CDW Canada](#), a leading provider of technology solutions and services for Canadian organizations, today announced it has been named [Arctic Wolf](#)'s 2026 Canada NSP Partner of the Year. The award recognizes the company's leadership in helping organizations strengthen security operations and defend against modern, AI-driven threats by delivering trusted security outcomes through Arctic Wolf solutions.

"Being named the 2026 Canada NSP Partner of the Year by Arctic Wolf is an honour that celebrates our performance and aligns with our mission to make technology work so that people can do great things," said Ginette Adragna, Senior Vice President and General Manager, CDW Canada. "This award underscores our commitment to excellence. We look forward to continuing this collaboration with Arctic Wolf and leveraging our combined expertise to drive greater impact in the evolving cybersecurity landscape."

As attackers increasingly leverage AI to move faster, scale attacks and exploit gaps across the attack surface, organizations are under pressure to adopt AI in security operations without adding complexity or risk. CDW Canada was recognized for its ability to help joint customers operationalize security in a way that is designed to be reliable, validated and aligned to today's security needs.

"These partners represent the best of the Arctic Wolf ecosystem," said Will Briggs, Senior Vice President, Global Channels, Arctic Wolf. "They share our commitment to delivering security outcomes customers rely on. Together, we're helping organizations defend at machine speed—while ensuring AI is applied in a way that is validated, governed and effective in real-world environments."

The Arctic Wolf Partner of the Year Awards recognize top-performing partners that demonstrate excellence in security expertise, customer outcomes and strategic alignment. Award recipients are selected based on their ability to help organizations

navigate an increasingly complex threat landscape, reduce operational burden on security teams and achieve stronger, more resilient security outcomes.

As organizations worldwide face accelerated threats and an ongoing cybersecurity talent shortage, more than 10,000 organizations globally rely on Arctic Wolf to help end cyber risk. Arctic Wolf solutions are powered by the Aurora® Superintelligence Platform, a cybersecurity platform built for the AI era. The platform combines agentic AI, security expertise and rigorous validation to deliver trustworthy outcomes across security operations. Each week, the platform processes more than nine trillion security events, transforming massive volumes of telemetry into prioritized, actionable outcomes that help organizations respond faster and operate with greater confidence.
