

INTELLIMIX™ BAR PRO

Introducing IntelliMix Bar Pro — All-in-One Collaboration, Elevated

We're thrilled to unveil the latest addition to Shure's video conferencing portfolio: the **IntelliMix Bar Pro**—a powerful all-in-one video bar and touch panel designed to elevate modern AI-enabled collaboration spaces. It combines premium Shure audio, intelligent multi-camera video, and global management on a secure Android platform with integrated compute, delivering all-in-one simplicity that helps partners deploy more rooms with less complexity.

Key Benefits:

- **All-in-One Simplicity**
Android-based video bar with **integrated compute** for faster installs and fewer components.
- **Seamless, Auto-Configured Deployment**
Built on Android with auto-setup for rapid, frictionless installation.
- **AI-Powered 4K Smart Framing**
IntelliMix™ View AI technology uses **multiple 4K cameras** to accurately frame participants.
- **Advanced DSP for AI-Ready Meetings**
Highly accurate speech capture and noise reduction support **Microsoft Copilot** and future AI-driven transcription workflows.
- **Secure, Scalable Management**
Built on Microsoft Device Ecosystem Platform (MDEP) with global remote monitoring via **ShureCloud** and IT management platforms.
