

AUTOMATE MASS DEVICE DEPLOYMENTS WITH MICROSOFT AUTOPILOT FOR EDUCATION

A NEARLY TOUCHLESS PROCESS FOR IT

Traditionally, school IT professionals spend significant time building, customizing and installing images on student devices for annual mass deployments. Windows Autopilot for Education automates deployment with a nearly touchless process for IT and ships devices directly to students' homes. It only takes a few simple steps for students to get their devices up and running.

Products and tools for automated device provisioning and management include:

- Windows 10 Education
- Microsoft 365
- Microsoft Autopilot for Windows 10 devices
- Microsoft Intune for Education
- Azure Active Directory Premium or Active Directory
- Lenovo's low-cost Windows 10 devices

FEATURES

Windows Autopilot provides setup and pre-configuration services for new devices so they're ready to use right out of the box.

- Automated device provisioning
- Devices shipped directly to students' homes
- Easy device setup: Students unbox and power on devices; Windows Autopilot configures them in a few steps
- More granular security for administrator accounts
- Devices automatically enrolled into Intune for security and to centralize device tracking
- Automatically joins devices to Azure Active Directory or Active Directory
- Easy remote reset
- Ruggedized, low-cost Windows 10 devices from Lenovo

BENEFITS

- Empowers students to learn from anywhere
- Saves significant time for IT professionals by streamlining large-scale device deployments and simplifying device administration
- Devices are secure when unboxed
- Devices are always configured with the latest Intune policies and apps so they're always up to date
- Easy remote device reset for fast repurposing for the next school year or for devices with issues
- Ruggedized Lenovo devices are reliable and built to withstand drops and spills for maximum longevity
