MICROSOFT 365 SECURITY WORKSHOP

Cloud

ACCELERATE CLOUD MIGRATION

The Microsoft 365 suite contains numerous security capabilities that can be leveraged to keep applications, data and users secure, while providing advanced notification of security threats from many sources.

CDW's Microsoft 365 Security Workshops provide a deep dive into these security capabilities, such as:

- Identity and Access Management
- Identity Protection and Governance
- Defender for Office 365 (formerly O365 ATP) and EOP
- Advanced Threat Analytics and Azure ATP
- Cloud Application Security

- Information Protection
- Rights Management and Encryption
- Defender for Endpoint
- Endpoint Manager
- Security Score

HOW DOES IT WORK?

Our workshops are taught by a Microsoft 365 subject matter expert from CDW who will educate participants on the security capabilities within the Microsoft 365 suite, as well as provide a demonstration of each capability.

As an optional add-on, at the end of the session, our experts can work with you to assess the current Microsoft 365 Security Score offer recommendations for the implementation or configuration of various Microsoft 365 controls to improve your security.

FEATURES:

- Deep dive into Microsoft 365 security capabilities that could improve the security of Office 365, Windows 10 and EMS
- Receive a security assessment of your Microsoft 365 environment along with configuration recommendations to improve Microsoft 365 security

BENEFITS:

- Gain better understanding of Windows 10, Office 365 and EMS Security features
- Uncover high-level gaps in your security controls that were previously unknown
- Determine what specific security controls your organization needs to implement to improve your security posture
- Gain an understanding of the top risks to your organization and how to remediate them
- Understand risk level of the current tenant configuration

CDW PEOPLE WHO GET IT™

WHO WE ARE?

With more than 900 coworkers in offices across the country, CDW Canada helps customers achieve their goals by delivering integrated technology solutions and services that include security, cloud, data centre, networking, collaboration and digital transformation.

WHY CDW?

We lead Canadian businesses through innovation, expertise and service.

INNOVATION

Hiring great technical talent allows us to be a truly innovative company. Our approach is to define a strategy roadmap that enhances the customer experience and provides organizations with the flexibility and vision to adapt to changes in business needs as well as technology.

EXPERTISE

We hand pick the best technical architects from across Canada, train them continuously and provide then with unique client challenges daily. In addition, we have a dedicated Canadian–based national Operations Centre (NOC) and aim to sign only highly skilled, qualified and experienced talents to manage your essential business demands.

SERVICE

Our commitment is first and foremost to our client and we strive to become a trusted advisor and an extension of your business. This does not happen overnight, but rather through proving ourselves again and again. As a proof, we always focus on 99.99% availability and have been recognized for being one of the best service providers in Canada.
