

MICROSOFT 365 SECURITY DEVICE PROTECTION

Security

INCREASE SECURITY FOR YOUR USERS, WHEREVER THEY WORK

As more and more users become mobile and are using a wider variety of devices, applications and documents need to keep up. How do you manage these devices while providing secure and reliable access to applications and data? Microsoft 365 helps provide easy, secure access to any device, no matter where someone might be.

CDW's device protection will include the steps necessary to understand your requirements and develop the deployment plan just for you. There are many possible options which can include a variety of tools and techniques.

Some of the products and tools covered in our device protection service include:

- Current security controls
- Azure Sentinel
- Cloud App Security
- Microsoft Intune
- Microsoft Defender
- Windows Advanced Threat Protection
- BitLocker

FEATURES

CDW will help you with a Microsoft 365 device protection pilot to be able to successfully deploy a complete solution which includes:

- Evaluate current environment and security requirements
- Deep dive into Microsoft 365 and features that could improve security of devices
- Plan and design a device protection solution to support a production-ready deployment
- Gather business and technical requirements to ensure a successful project
- Installation and configuration of Microsoft Intune, Azure AD, Cloud App Security and more if needed
- Configuration of the components to integrate with your existing environment
- Knowledge transfer on proper administration and configuration of device protection
- Develop a roadmap for adoption of security features of Microsoft 365

BENEFITS

- Integration of multiple pieces to work seamlessly together
- Knowledge transfer on best practices to deploy and administer a device protection solution
- Utilize features to maximize the benefits of Microsoft 365
- Accelerate or improve administration, deployment, investigation and remediation
- Develop a roadmap on planning for the security and compliance of Office 365, Windows 10 and EM

WHO ARE WE?

With more than 900 coworkers in offices across the country, CDW Canada helps customers achieve their goals by delivering integrated technology solutions and services that include security, cloud, data centre, networking, collaboration and digital transformation.

WHY CDW?

- CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.
- We can help you navigate Microsoft's robust array of solution offerings.
- CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.
- We get Microsoft, and we can share our knowledge with you so your organization can spend less time managing software and more time putting it to work.
