

WINDOWS VIRTUAL DESKTOP PILOT

Cloud

UNTETHER FROM ON PREM VIRTUAL DESKTOP

If your current virtual desktop is limiting, you are in luck! Microsoft introduces Windows Virtual Desktop (WVD) (desktop-as-a-service) that you can access from anywhere.

PILOT WVD

CDW is excited to introduce a new pilot program allowing clients to easily and securely test the Windows Virtual Desktop from anywhere. We're here to help you simplify complex solutions.

WHY OUR WVD PILOT PROGRAM IS SECOND TO NONE!

- Clients can test WVD within a week of deployment
- As a Microsoft Gold partner, we have the ability to request funding
- Experience with WVD is limited, but here at CDW, we have a bench of experienced users

SECURITY

- Ensure compliancy with all industry regulations
- Secure access to corporate data and apps
- Empower employees to access more data than ever before
- Rely on a breadth of experience CDW security professionals

REDUCED MANAGEMENT

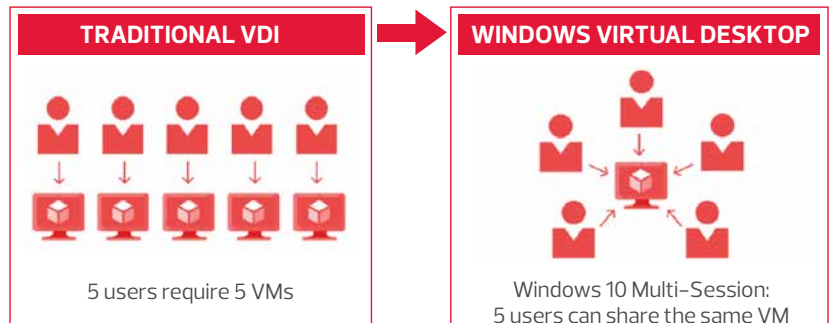

- No management of data centres required
- Self management of images and users
- Reduce costs associated to managing on-prem infrastructure
- Scale to what you need

EMPLOYEE ENABLEMENT

- Increase elastic workforce
- Employee specific needs (ie. BYOD to department specific requirement)
- Reduced latency issues between end user and DC
- Empower IT to transform the workplace

COMPARISON

Traditional VDI requires higher use of resources. With Windows 10 multi session you have a more efficient use of VM resources.

SCOPE OF THE CDW WVD PILOT

CDW's Windows Virtual Desktop pilot program can configure up to 10 users on WVD.

PHASE 1: REVIEW

- Review of any existing VDI environments
- Gather pre requisites for your applications and image requirements
- Ensure deployment readiness

PHASE 2: CONFIGURE

- Configure WVD components on Azure
- Configure one host pool with up to 10 instances
- Your team will focus on getting ready for testing while we set you up

PHASE 3: TRANSFER

- Project is completed and pilot is ready for testing
- CDW will provide knowledge transfer and a runbook to destroy the environment once testing is completed
- You can choose to keep the environment and transition to production

ADDITIONAL BENEFITS

Still considering?

- WVD is optimized for O365 with deep Intune Modern Management Integration
- Easily migrate existing Remote Desktop Solution (RDS) environments to WVD
- Securely connect to your desktops over SSL and authenticate with MFA
- Greater accessibility with support for Windows, MacOS, Android, and HTML5

CDW CLOUD PRACTICE

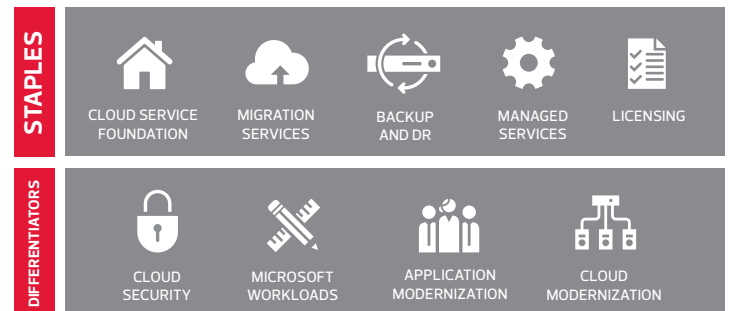

Our CDW cloud practice accelerates the development process, enables your team to manage infrastructure more autonomously and ultimately improves your experience.

- We are a Microsoft Partner with Gold Cloud Platform Competency practices
- CDW's cloud practices have a bench of cloud certified Azure professionals to support your cloud journey
- We use automation tools to deploy your Azure landing zone, which reduces risk, time and costs
