

Cisco Security Assessments

Security

WHAT ARE THESE COMPLIMENTARY SECURITY ASSESSMENTS?

- Cisco's security assessments involve an expert member of CDW's solutions team connecting with you for an interview-based gap analysis
- Following this discussion, you will be provided with a findings report that includes high-level gaps, risks and vulnerabilities as well as next steps for your business
- This assessment is complimentary – there will be no charge to you

Our expert can team perform the following assessments:

Campus & Edge Inspection

The Campus & Edge Inspection is a thorough examination and analysis of the network and security infrastructure at the perimeter and internal network of an organization, typically within a campus setting. This inspection aims to identify vulnerabilities, assess the effectiveness of current security measures and ensure compliance with security policies and standards.

Data Centre & Virtual Infrastructure Cybersecurity Inspection

The Data Centre & Virtual Infrastructure Cybersecurity Inspection is a comprehensive evaluation focused on the security aspects of a data centre and its associated virtualized environments. This inspection is crucial for ensuring the protection of critical data and IT assets housed within these facilities, especially given the complex and dynamic nature of virtual infrastructures.

Cloud Inspection

The Cloud Inspection is a specialized assessment designed to evaluate the security posture of an organization's cloud-based infrastructure and services. This inspection is essential due to the unique security challenges posed by cloud computing, such as shared resources, remote access and reliance on third-party service providers.

IoT Inspection

The IoT Inspection is a specialized evaluation aimed at assessing the security posture of IoT devices and the ecosystems in which they operate. Given the diverse and rapidly expanding nature of IoT devices, which range from simple sensors to complex smart systems, this inspection is crucial for identifying and mitigating potential security risks.

BENEFITS:

- **Identify Vulnerabilities:** Our expert team will help you pinpoint potential gaps in your security posture.
- **Actionable Insights:** Receive tailored recommendations to strengthen your organization's defences against cyberthreats.
- **Proactive Security:** Stay one step ahead with a comprehensive assessment that helps you safeguard your business from emerging risks.
- **Service Credit:** You can earn a \$5,000 service credit upon complete of the security assessment
