

PARK PLACE
TECHNOLOGIES

Empowering IT Teams to Think Bigger – and Act Faster.

CORPORATE OVERVIEW | NORTH AMERICA

IN PARTNERSHIP WITH:

IT infrastructure management is filled with challenges:

- Staff attrition, retirements, and restructuring are resulting in skills gaps and capacity issues
- An uncertain economic environment is putting downward pressure on budgets
- Supply chain issues are creating disruptively long wait times for new hardware
- Company leadership, boards, and customers are demanding that companies run sustainable IT practices

The result? Now more than ever, IT leaders must figure out how to do more with less. They must get the most out of their budgets – and their internal teams. They must identify strategies that will allow them to simultaneously digitally transform their businesses – and manage their traditional infrastructures.

That's where Park Place Technologies comes in. As a data center and networking optimization firm, we're built to help companies make their IT infrastructure more productive, more cost efficient, perform at its best, and be more sustainable. Empowering you to think bigger – and act faster.

OPTIMIZE PRODUCTIVITY

- Consolidate services, manage fewer partners
- Free your highly qualified staff from mundane tasks e.g., patch management, triage
- Complement gaps in staff skills
- Add temporary capacity to handle surges in activity

OPTIMIZE BUDGET

- Save 30-40% on hardware maintenance vs. OEM support
- Save 55-90% on new and preowned hardware
- Bundle services to save even more
- Consolidate from several NPM tools to one with Entuity

OPTIMIZE PERFORMANCE

- Increase Uptime
- Expedite Root Cause Analysis
- Faster mean-time-to-repair
- First-Time Fix™ Guarantee

OPTIMIZE SUSTAINABILITY

- Extend the life of existing hardware
- Buy refurbished hardware instead of new
- Repurpose, resell, or recycle hardware
- Automated monitoring and First-Time Fix™ Guarantee reduce the number of trips needed to address issues

SUPPORTED OEMS

SUPPORTED OPERATING SYSTEMS

IT Infrastructure Management Optimized

Wherever you are in the IT infrastructure management lifecycle, you can count on Park Place to make the process more efficient. From procuring to decommissioning, our portfolio of services and products will optimize your budget and free your team to focus on big-picture initiatives.

-
