

HEALTH CHECK PROFESSIONAL SERVICES: PALO ALTO NETWORKS

Security

SERVICE OVERVIEW

CDW's security team is here to help organizations get the most out of their security investment in Palo Alto Networks solutions. Our certified experts have the training and experience to integrate Palo Alto Networks solutions that optimize next generation security protection, and our professional services offerings are designed to minimize risk and downtime while maximizing the security protection provided by Palo Alto Networks.

WHY DO CUSTOMERS TRUST CDW FOR THEIR PALO ALTO NETWORKS IMPLEMENTATION NEEDS?

CDW Canada is a Palo Alto Networks Diamond Innovator Partner, certified Professional Services Partner and the only Authorized Training Partner in Canada. Additionally, many of the certified Palo Alto Networks professionals in Canada were trained by CDW.

TYPES OF ENGAGEMENTS

- **Best Practice Assessments** – Our assessments are designed to evaluate whether your existing Palo Alto Networks solution is optimized based on the vendor's best practices and provides recommendations to remediate any deficiencies found within your configuration.
- **Health Check** – This service is a deeper technical dive into your configuration settings, licensing and architecture, to ensure all features are enabled, tuned and optimized.
- **Remediation Services** – Often the next step after a health check or best practice assessment, a CDW certified Palo Alto Networks expert will address and remediate any deficiencies that are identified. Examples can include enabling blocking for IPS policies for better protection, configuring application aware policy for more granular traffic control or enforcing network segmentation for proper traffic zoning.
