

IMPLEMENTATION PROFESSIONAL SERVICES: FORTINET

Security

SERVICE OVERVIEW

CDW's security team is here to help organizations get the most out of their security investment in Fortinet solutions. Our certified experts have the training and experience to integrate Fortinet solutions that optimize next generation security protection, and our professional services offerings are designed to minimize risk and downtime while maximizing the security protection provided by Fortinet.

CDW Canada is a Fortinet Platinum Partner, and #1 direct market reseller (DMR) partner in Canada.

TYPES OF ENGAGEMENTS

- **Rapid Deployment Implementation Services** – This service is designed to assist in the planning and execution of your implementation of Fortinet solutions and helps you get up and running as quickly as possible.
- **Custom Design & Integration Services** – This service is designed for customers that have complex design and integration requirements and are looking for minimum downtime and risk.
- **Greenfield Installation** – For customers who are setting up new networks, either in the cloud or in a new data centre, CDW can assist with building the right security zones and policies to protect your environment, based on industry best practices.
- **Vendor Migration** – When you decide to migrate from an older vendor technology to a next-gen Fortinet solution, CDW can ensure your security controls are maintained while advancing your security protection. Our team of experts will leverage new capabilities such as application aware security policies, or SSL decryption to inspect all inbound traffic.

BENEFITS

- Your Fortinet solution will be delivered through certified experts ensures that you are maximizing the protection available through your security investment
- Our experts free up your resources to perform more strategic business focused initiatives
- Minimized risk and downtime
- You will be working with CDW trusted, certified security experts that follow industry and vendor recommended best practices to secure your network through the most advanced security features

WHO ARE WE?

With more than 900 coworkers in offices across the country, CDW Canada helps customers achieve their goals by delivering integrated technology solutions and services that include security, cloud, data centre, networking, collaboration and digital transformation.

WHY CDW?

Depth of expertise – We have extensive consulting experience. No matter the size or industry of your organization, we are experienced in solving difficult problems. We've been consulting for Canadian organizations for over 15 years.

Continuous improvement – We invest in our people. Training is integral to ensuring our consultants are up-to-date on the latest security trends, technologies and remediation options. Our consultants regularly attend industry-leading conferences and training sessions to maintain their level of expertise.

Track record – CDW has a proven success record with Fortinet implementations, custom designs and technology integrations and vendor migrations.

Full-service consultancy – CDW has the knowledge and capability to offer Fortinet solutions that will ensure organizations get the most out of their security investments with next generation security protection.

Verified – We back up our security expertise with an array of industry and partner certifications.
