

# A SEAMLESS TRANSITION TO THE CLOUD

Looking to move to the cloud? How does that affect your identities? How do you enable security and protect your users? CDW is here to help with a secure way to transition and connect your identities to the cloud with confidence. We will get you started in the most secure way of connecting your users to the cloud.

#### **WHAT YOU GET**

Microsoft Entra is a suite of cloud-based identity solutions that provide a host of identity and access management capabilities. Azure Active Directory (Azure AD), a core Microsoft Entra solution, provides Identity as a Service features and capabilities, including cloud unified identity management, single sign-on, conditional access, identity protection and identity lifecycle management.

This rapid deployment, optimized for small to medium–sized businesses, enables customers to quickly realize value from their investment in Azure AD. As part of this engagement, a CDW Azure AD subject matter expert will work with the customer to configure and deploy an Azure AD tenant in an all-cloud or hybrid identity configuration, according to CDW security best practices.

#### WHAT'S INCLUDED

- Azure AD rapid deployment
- Initial tenant configuration
- Basic security settings
- Multifactor authentication (MFA), self-service password reset (SSPR) and Password Protection configuration
- Publish and configure enterprise SaaS apps in Azure AD (up to four)
- Additional security configuration
- Post-deployment review session

#### **PRICING:**

Get started for \$10,000

#### CDW'S SECURITY APPROACH

Our risk-based approach to security is based on the NIST Cybersecurity Framework, which allows organizations to achieve their ideal security posture. We work with you to:

# **PREPARE**

We help our clients create and align strategies and programs to address ever-evolving business risks. This includes creating a relevant and achievable security roadmap.

## **DEFEND**

We work collaboratively with clients to decide which technologies to implement to protect against cyberthreats.

### RESPOND

We monitor critical business assets, respond rapidly to incidents and validate the effectiveness of security controls 24x7x365, so you don't have to.

# RELY ON CDW'S BEST-IN-CLASS SECURITY PROFESSIONALS

#### Our team has:

- 100+ certifications spanning the breadth of the security domain, including secure architecture, log & data analytics and threat prevention
- 15+ years consulting for Canadian organizations
- Every consultant has a foundation in operational excellence and at least five years of field experience
- Highest level of partner recognition from top security vendors
