

MICROSOFT 365 DEFENDER RAPID DEPLOYMENT

Security

MAXIMIZE YOUR MICROSOFT INVESTMENT

Are you looking for a security solution that will be one platform to manage devices, email and cloud applications? Want to avoid using multiple technologies and different administrative tools? CDW wants to help you get started with a native Microsoft solution to help you get the best of your Microsoft investment while protecting your organization.

WHAT YOU GET

Microsoft 365 Defender is an XDR solution that natively coordinates detection, prevention, investigation and response across endpoints, identities, emails and applications. This rapid deployment, optimized for small to medium-sized businesses, enables customers to realize value from their investment in Microsoft 365 security. As part of this engagement, a CDW M365 security subject matter expert will configure and assist with deploying Defender for Endpoint and Defender for Office 365 according to security best practices within the customer's Microsoft 365 Tenant.

WHAT'S INCLUDED

- **Phase one:** M365 Defender Tenant configuration
 - Initial Defender portal configuration
 - Enable M365 Defender service
- **Phase two:** Defender for Office configuration
 - Initial Defender portal configuration
 - Defender for O365 planning and preparation
- **Phase three:** Defender for Endpoint deployment and configuration
 - Defender for Endpoint configuration and deployment
 - Run detection tests
- **Phase four:** Defender for cloud apps configuration
 - Defender for cloud apps setup and configuration
 - Enable Defender for cloud apps in Defender portal

CDW'S SECURITY APPROACH

Our risk-based approach to security is based on the NIST Cybersecurity Framework, which allows organizations to achieve their ideal security posture. We work with you to:

PREPARE

We help our clients create and align strategies and programs to address ever-evolving business risks. This includes creating a relevant and achievable security roadmap.

DEFEND

We work collaboratively with clients to decide which technologies to implement to protect against cyberthreats.

RESPOND

We monitor critical business assets, respond rapidly to incidents and validate the effectiveness of security controls 24x7x365, so you don't have to.

RELY ON CDW'S BEST-IN-CLASS SECURITY PROFESSIONALS

Our team has:

- 100+ certifications spanning the breadth of the security domain, including secure architecture, log & data analytics and threat prevention
- 15+ years consulting for Canadian organizations
- Every consultant has a foundation in operational excellence and at least five years of field experience
- Highest level of partner recognition from top security vendors
