

# Multiple layers of defense

### Built-on **Software Security**

Layer on advanced threat protection with software from an expertly selected partner ecosystem. Take advantage of the benefits and efficiencies that come from consolidating security purchases.

Prevent, detect and respond to threats wherever they occur

**Dell SafeGuard and Response**

**Dell SafeData**

### Built-in **Hardware & Firmware Security**

Prevent and detect foundational attacks with the world's most secure commercial AI PCs.<sup>1</sup> Deep defenses at the BIOS/firmware and hardware levels keep the device protected in-use.

Stay protected from evolving threats

**Dell SafeBIOS**

**Dell SafeID**

### Built-with **Supply Chain Security**

Work confidently knowing your device is secure from first boot. Secure PC design, development and testing help reduce the risk of product vulnerabilities. Rigorous supply chain controls reduce the risk of product tampering.

Trust hardware is tamper-free on delivery

**Dell SafeSupply Chain**

<sup>1</sup>Based on Dell internal analysis, October 2024. Applicable to PCs on Intel processors. Not all features available with all PCs. Additional purchase required for some features. Validated by Principled Technologies. A comparison of security features, April 2024.
