

The Smart Hybrid Campus

Control and optimize your campus in real time with insights and data provided by hybrid campuses. With various safety and security solutions, a smart campus is a valuable investment for your institution.

Tailor Your Campus to Fit Your Needs

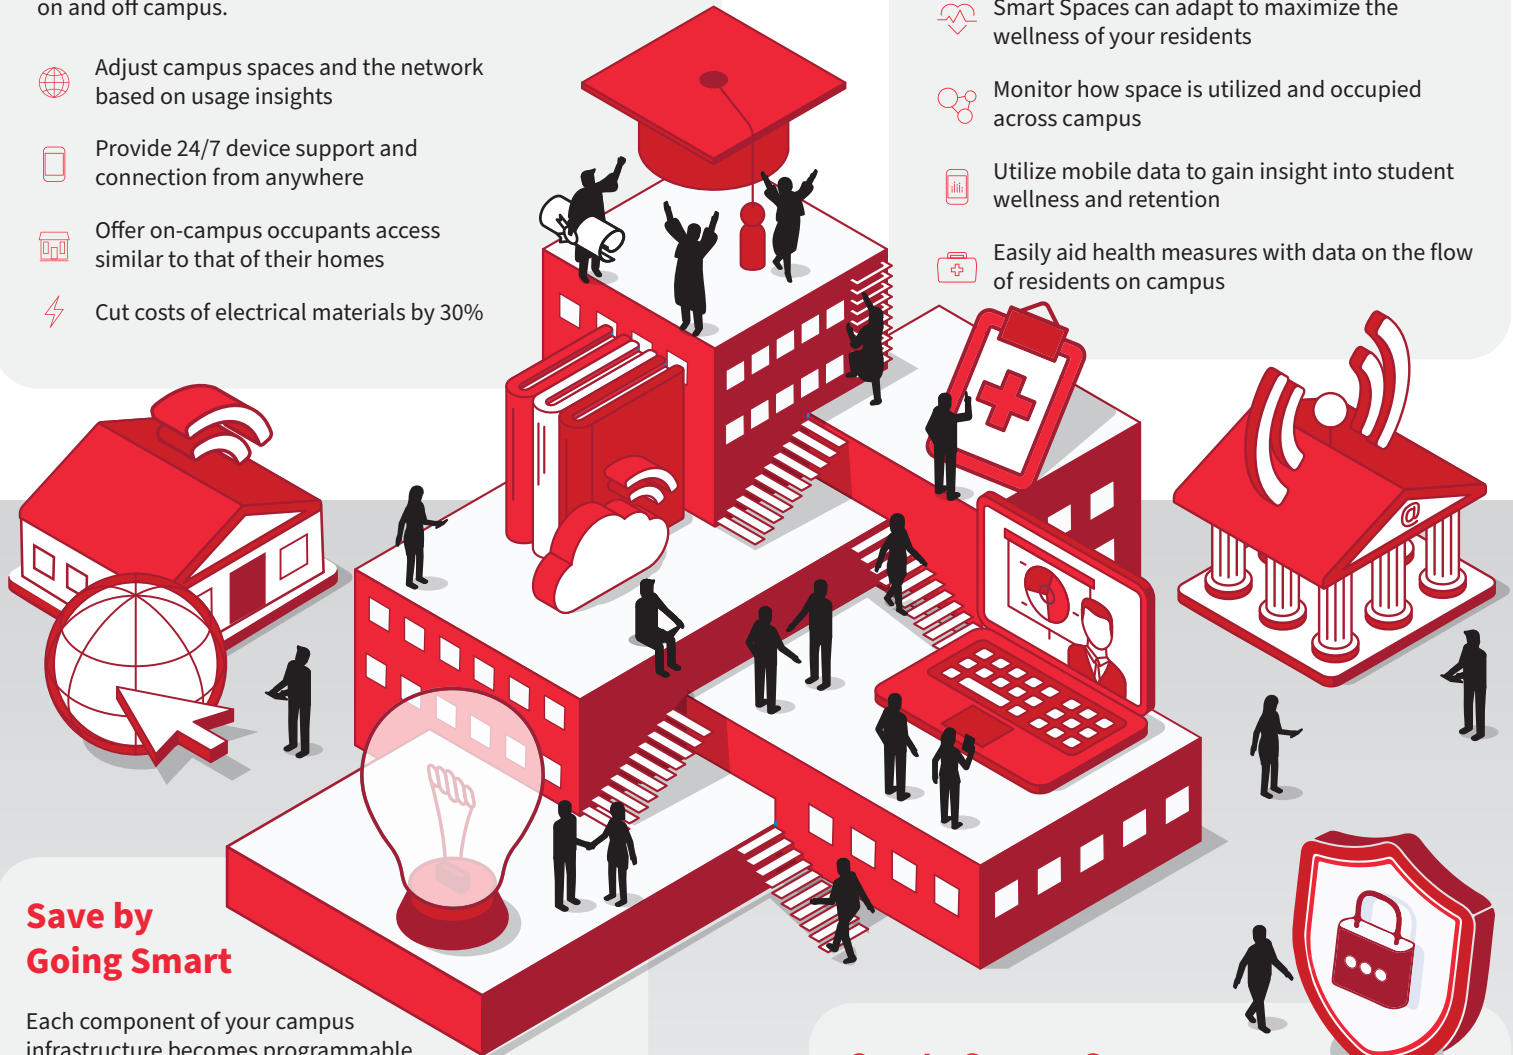

Customize your campus to fit the needs of those who occupy it with 90W Universal Power over Ethernet (UPOE+), which can enhance everything from residential living to connectivity both on and off campus.

-  Adjust campus spaces and the network based on usage insights
-  Provide 24/7 device support and connection from anywhere
-  Offer on-campus occupants access similar to that of their homes
-  Cut costs of electrical materials by 30%

Focus on Health and Safety

Prioritize staff and student well-being at the heart of your campus.

-  Smart Spaces can adapt to maximize the wellness of your residents
-  Monitor how space is utilized and occupied across campus
-  Utilize mobile data to gain insight into student wellness and retention
-  Easily aid health measures with data on the flow of residents on campus

Save by Going Smart

Each component of your campus infrastructure becomes programmable with Cisco Catalyst and Cisco Edge Intelligence.

-  Automatically adjust classroom features and occupancy
-  Administer policy across campus
-  Improve network performance and security
-  Simplify processes by consolidating management into one system
-  Secure devices and isolate potential threats

Create Secure Spaces

Secure your network so you can provide a safe learning environment for students whether they are on or off campus.

-  Detect abnormalities in your network traffic
-  Monitor and protect data of all campus services
-  Gain insights for security by monitoring behavioural patterns of campus occupants
-  Instill a strong sense of security across campus

Build your smart campus today with Cisco smart building solutions and CDW support.
