AUTHORIZED TRAINING CENTRE

Security

SERVICE OVERVIEW

We are proud to be the first local Authorized Training Centre in Canada for Palo Alto Networks and F5 Networks technology offering private in-person classes. CDW's prime differentiator is our world-class team of technical talent. As part of this commitment to technical excellence, our staff are certified trainers in the technology we sell. Maximize the investment you have made in new technology by having your staff trained by the engineers who worked on your deployment!

COURSE LISTING

Palo Alto Networks Courses:

- Firewall Essentials: Configuration and Management
- Panorama: Managing Firewalls at Scale
- Prisma Access SASE Security: Design and Operation

F5 Networks Courses:

- Administering BIG-IP
- Troubleshooting BIG-IP
- Configuring BIG-IP LTM: Local Traffic Manager
- Configuring BIG-IQ
- Configuring BIG-IP APM: Access Policy Manager
- Configuring BIG-IP DNS (formerly GTM)
- Configuring F5 Advanced WAF (formerly ASM)
- Setting Up F5 Advanced WAF
- Configuring BIG-IP AFM: Advanced Firewall Manager
- Developing iRules for BIG-IP
- Securing Apps with F5 Solution

BENEFITS

- Vendor-certified courses help students to develop career-advancing technical skills and validate progressive competencies while working with Palo Alto Networks and F5 Networks platforms
- Authorized Training Centre can assist you in maximizing your company's potential and expertise by providing training for your staff after you've invested in a new technology
- After completing PAN or F5 training students will be better positioned to deliver applications securely, protecting them against today's cybersecurity threats across various architectures, both on-premise and in the cloud

HOW DOES IT WORK?

1. Decide which course you would like to take. We understand that some students have specific needs and CDW is ready to help and adjust by customizing the course format, delivery type and preferred training location.

2. Check prerequisites and schedule the preferred training by contacting our CDW account team.

3. Complete the course by passing a proctored exam and receive your well-earned certificate.

WHO ARE WE?

With more than 900 coworkers in offices across the country, CDW Canada helps customers achieve their goals by delivering integrated technology solutions and services that include security, cloud, data centre, networking, collaboration and digital transformation.

WHY CDW?

We lead Canadian businesses through the next-generation of IT through innovation, expertise and service.

INNOVATION

Hiring great technical talent allows us to be a truly innovative company. Our engineers are constantly introducing next-generation technologies into our in-house testing centre to ensure emerging technologies are up to the task of the enterprise workloads of our clients.

EXPERTISE

We hand pick the best engineers from across Canada, train them continuously and provide them with unique client challenges daily. As a proof, our trainers hold more than 100 certifications in the area. In addition, CDW experts have delivered some of the largest PAN and F5 deployments in the country and they can bring real-world examples and experience to the training.

SERVICE

Our commitment is first and foremost to our clients and we strive to become a trusted advisor and an extension of your business. CDW is one of the top partners of Palo Alto Networks in Canada and was named Platinum Level Partner by F5 Networks.
