## Google Workspace for Education

Your all-in-one EdTech solution

Empower your school community with advanced security and insights and easy-to-use tools that enrich and personalize learning.

Advanced privacy and security controls

Protect your school with one of the most popular and secure cloud-based productivity suites, providing automatic protections, centralized visibility and controls, and powerful analytics.

Innovative teaching and learning tools

Empower educators to deliver impactful instruction with easy-to-use tools that personalize learning, simplify class management, and enable teaching and learning from anywhere.

Comprehensive EdTech solution

Reduce costs, improve security, and save time with an all-in-one solution. Education Plus eliminates the need for multiple costly tools and enables EdTech consolidation.

191% ROI over three years reported by institutions using Education Plus[1]
[Calculate your savings](#)

170M+ Google Workspace for Education users worldwide[2]

1. Based on a commissioned study by Forrester Consulting, August 2022. Results are for a composite institution based on interviewed customers from The Total Economic Impact™ of Google Workspace for Education.

Google for Education

Consolidate your tech stack with a **comprehensive EdTech solution.**

$

Reduce costs
Eliminate the need to invest in, administer, and support other EdTech tools

G

Improve security
Get protection from one of the world's most advanced security infrastructures

Save time
Access teaching and learning tools easily in one place using a single sign-on

---

Strengthen security and insights

Prevent cyberthreats before they emerge

- Prevent, detect, and remediate security incidents across your domain and get customized recommendations
- Block 99.9% of spam, phishing attempts, and malware in Gmail with AI-powered protections
- Get instant visibility into data loss prevention rule violations, compromised devices, external file sharing, and more

Centralize data and access management

- Manage privacy and security policies and control granular data and device settings in a unified tool
- Control who can access files, apps, and sensitive data by user identity, device security status, IP address, and more with context-aware access policies
- Support compliance with GDPR, FERPA, COPPA, and more while limiting data to the US or Europe

Develop insights with analytics and data visualizations

- Get real-time insights and visibility into how students turn in, perform on, and engage with assignments*
- Analyze product usage and potential security threats with advanced queries and data visualizations

---

Enrich teaching and learning

Personalize learning experiences

- Help students learn at their own pace and offer hints when they get stuck, with the help of AI, using practice sets
- Assign interactive questions for YouTube videos* in Google Classroom
- Integrate and assign leading third-party tools and grade assignments by your preferred grading structure

Save time and simplify class management

- Create shareable class templates and classwork* with pre-populated curriculum in Classroom
- Virtually visit a class and temporarily grant access to support staff as an Admin
- Review student work for originality against material online and your school-owned repository of peer matches
- Get an additional 20 GB of Drive storage for each paid license on top of the 100 TB of pooled cloud storage
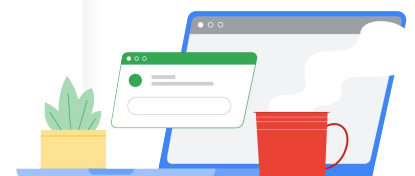

Teach and learn from anywhere

- Deepen engagement with breakout rooms, Q&As, polls, transcripts, and recordings
- Include up to 1,000 participants or live stream in Meet

---

* Coming soon

Prepare students for the future

**96%** of Forbes' next $1B startups use Google Workspace[1]

75% of university students prefer Google Workspace as their productivity suite of choice[2]

1. Google Workspace website.
2. The Emerging Workforce overwhelmingly prefers Google Cloud tools, Sada Systems Inc., August 2022

Google for Education

With Education Plus, institutions consolidated their EdTech tools to save thousands of dollars and strengthened their security, experiencing a major reduction in phishing attempts.*
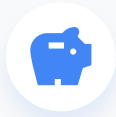

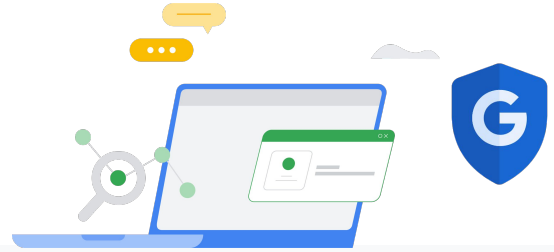

$410K

Savings by eliminating the need for additional security, collaboration, and storage tools

95%

Reduction in the number of phishing attempts experienced

Consolidate your tech stack to reduce costs, improve security, and save educators' time.
