

# MacBook Air. Now with the Apple M1 chip.

## Great tool. Great price.

Apple's thinnest and lightest notebook gets supercharged with the Apple M1 chip. Tackle your projects with the blazing-fast 8-core CPU. All with a silent, fanless design and the longest battery life ever—up to 18 hours.<sup>1</sup> MacBook Air. Still perfectly portable. Just a lot more powerful.

Starting as low as \$749 in payments, bring MacBook Air into your organization and your employees can stay productive wherever work takes them.<sup>2</sup>

Apple Financial Services provides flexible and tailored solutions that are as unique as your business — making it easy to get the products and services you need today, with custom financing solutions that work with your budget.

**CDW works directly with Apple Financial Services to create a custom financing solution that works for your business. To learn more call 1-800-800-4239, or email [afs\\_cdw@apple.com](mailto:afs_cdw@apple.com).**

<sup>1</sup>Battery life varies by use and configuration. See [apple.com/batteries](https://apple.com/batteries) for more information. <sup>2</sup>Based on a 36 month fair market value leasing structure for 13-inch MacBook Air, Apple M1 Chip with 8-Core CPU and 7-Core GPU, 256GB storage. Offer will vary depending on final products that are included. This special offer requires a minimum purchase of \$5,000 of Apple products. Offer valid in the U.S. only. Offer expires December 31, 2021.
