

WE GET AUTOMATING APPLE DEVICE MANAGEMENT SO YOU CAN FOCUS ON YOUR BUSINESS.

CDW Amplified™ Endpoint
Jamf Pro Pilot

Jamf Pro is a comprehensive management system for Apple's macOS and iOS devices that empowers IT to deliver the functionality required in today's modern work environment. CDW takes on Apple device management and streamlines the process to provide a single source of management to automate the entire lifecycle of Apple in the enterprise. The Jamf Pro Pilot provides both product and solution best practices with configuration recommendations resulting in evidence-based insight to ensure security, governance and compliance is uplifted into your Apple device management solution.

CDW's Jamf Pro Pilot can help you achieve:

Operational
Efficiencies

Reliability

Increased
Performance

Orchestrating the Right Solution

CDW helps you design a Jamf Pro proof of concept and successfully deploy a complete solution that will allow you to do the following:

- Plan and deploy an Apple device management solution with Jamf Pro to support a production-ready environment
- Gather business and technical requirements to ensure a successful solution
- Integrate with Microsoft Endpoint Manager and Azure Active Directory to ensure overall device compliance
- Configure mobility components to manage and integrate with your existing environment
- Perform knowledge transfer on administration and configuration of mobility and security components
- Deploy and configure macOS and third-party software update policies
- Configure reporting, policies, configuration profiles and end-user self-service portal
- Build and configure a modernized automated deployment solution of macOS and iOS devices through zero-touch provisioning

CDW GETS MODERNIZING SECURITY AND DEVICE MANAGEMENT

CDW is an end-to-end provider of solutions and services who delivers modernized security and device management to work from home employees. We are uniquely qualified to design, deliver and manage a flexible solution tailored to your needs. CDW helps you adopt and integrate Jamf Pro effectively and efficiently across your environment. We have a long-standing, award-winning relationship with Apple and Jamf that we extend to our clients. We get modernizing security and device management within the cloud.

CDW's full lifecycle of Services can support your organization no matter where you are on your journey

CDW AMPLIFIED™
SERVICES

Services Overview

A Jamf Pro Pilot engagement includes the following elements:

Service	Included
Assessment: Evaluating the existing environment and readiness for a move to Jamf Pro features, which will typically include analyzing current management solution and security protocols throughout your environment.	✓
Envisioning: Working with your team members to understand how they work today and how Jamf Pro fits into their workflows by developing high-value use cases.	✓
Planning and Design: Workshops with your administration team and project stakeholders to ensure that Jamf Pro meets all of the necessary requirements to support the end-state environment.	✓
Success Planning: Working with the appropriate project team members and stakeholders in a series of formal and informal sessions to discuss the development and execution of the customer training, communication and support requirements that will benefit the organization most.	✓
Build and Pilot: Setup and configuring Jamf Pro features specified during the design and planning including implementation and testing of policies, configuration profiles, enrollment of end user devices and validation testing through end-user pilot groups. This will help your users not only understand how Jamf Pro works, but also help them understand how it works with their workflows through onsite end-user knowledge transfer.	✓
IT Success Sustainment: Uplifting your support staff to continue the success that is built through the rest of the engagement through FAQs, administrative knowledge transfer and best practices.	✓
Marketing and Communications: Raising awareness and excitement within your user community by creating engaging communications to your critical stakeholders through items such as email, signage and newsletters.	✓
Manage and Measure: Reviewing qualitative and quantitative data to provide you with actionable recommendations to increase your adoption of the platform through built-in and custom tools as well as surveys.	✓

Certifications

CDW has earned the following certifications:
