AQCOLOR Technology

BenQ AQCOLOR Technology delivers an accurate reproduction of colors.

One Cable Connectivity

The latest Thunderbolt 3/USB-C port provides high-speed video, audio, data transmission, and power delivery with just one cable. Improve your workflow with an uncluttered workspace.

KVM: One Control for Two Systems

Control content from two different PC systems on one screen, keyboard, and mouse to save space.
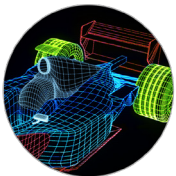

One Key Shortcuts

Easily access input modes, industry standard color settings, and other features. Navigate your screen settings with the Hotkey Puck G2.

One Versatile Display

Split your screen with Picture in Picture (PIP) and Picture by Picture (PBP). Easily customize your workflow and experience infinite of possibilities with the massive screen size.

Built-in USB Hub

Free up desk space and save money with the built-in USB hub! The hub allows instant access to your content without the need of an external dongle.

CAD/CAM Mode

Enjoy superior contrast of lines and shapes in technical illustrations.
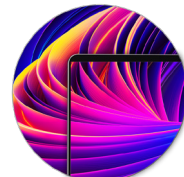

Animation Mode

Enhance the clarity of dark areas without overexposing bright regions.

Darkroom Mode

Adjust image brightness and contrast for work in dark environments.

M-Book Mode

Replicate exquisite color from Mac devices on your BenQ display.
