# Color Match at Its Best

With professionally calibrated color match for MacBook Pro® devices, BenQ monitors deliver vibrant colors optimizing your workflows on Mac® and MacBook®. Whether you're into professional creative tasks or versatile work scenarios, there is a BenQ monitor that meets your needs, delivering Mac color-matching precision.

BenQ PD Series

Experience the best monitor for Mac/MacBook Pro-based designers and content creators. With out-of-the-box color accuracy, BenQ PD Series is your top choice for any professional workflows requiring a calibrated color match from your Mac devices to the monitor.

BenQ MA Series

Meet the best monitors complementing your less-is-more philosophy and lifestyle. With its sleek design, intuitive usability, and precise Mac color-matching that fits into various work scenarios, BenQ MA Series is ideal for versatile users who rely on MacBook Pro or MacBook Air to enhance creativity and productivity.

BenQ SW Series

Experience the best monitor for Mac/MacBook Pro-based photographers. Expertly crafted with industry-standard color precision and hardware calibration, BenQ SW Series delivers reliable 99% Adobe RGB and broad connectivity options for the most demanding creative projects and tasks.

The Perfect Color Match for Mac®

BenQ monitors for Mac feature IPS panels with 1.07 billion colors. You get immediate access to Wide Color (P3), sRGB, and Rec. 709 with complete consistency and total confidence. Furthermore, BenQ Monitors for Mac feature an optimized M-Book mode to deliver consistency and continuity, so your work benefits from seamless transitions.

Colour Consistency at Your Fingertips

If you often forget to sync ICC profiles when moving from web design to video editing and back again, BenQ has you covered. ICCsync auto-matches and auto-synchronize ICC profiles on the monitor when you change color modes and also between your MacBook® screen and the BenQ monitor.

If you often forget to sync ICC profiles when moving from web design to video editing and back again, BenQ has you covered. ICCsync auto-matches and auto-synchronize ICC profiles on the monitor when you change color modes and also between your MacBook® screen and the BenQ monitor.

BenQ Display Pilot Software

Display Pilot simplifies workflows by offering support tools to make creative work more convenient and flexible. Available for Mac & Windows.

*Apple M1, M2, M3, M4 platform supported.

*Specifications may vary by model & region; please visit the local BenQ website for details.

One Cable Does It All, But There's More!

Truly capable Thunderbolt monitors offer a streamlined, simplified design that delivers powerful capabilities without hassle. You can easily extend content to two 4K displays for Thunderbolt 3 devices in a daisy chain. To cover your diverse needs, BenQ monitors for Mac go beyond Thunderbolt to encompass HDMI, DisplayPort, and several USB connectors. Boost your work efficiency and extend the usability of your monitor with plentiful connectivity.

Ergonomic Design

The height-adjustable stand, with its tilt, swivel, and pivot flexibilities, allows you to create comfort in the ideal position.

*Specifications may vary by model & region; please visit the local BenQ website for details.
