A Versatile One-Cable Solution

The USB-C connector is now featured in many products such as Apple's latest MacBook Air, MacBook Pro, and any new Windows 10 products. Because of this shift towards using a USB-C connector, creatives and professionals are gravitating towards monitors with USB-C capability.

The USB=C connector is growing in popularity due to these useful advantages:

Data can be transferred rapidly

A USB-C or Thunderbolt 3 cable can efficiently transmit an image signal of 3840x2160 (4K UHD) at a refresh rate of 60Hz.

Expect excellent image quality because USB-C connectors are often featured in monitors or laptops with a high resolution.

*Charging capabilities

Charge your laptop and use your monitor at the same time with one cable! USB-C ports features a charging function that allows you to connect a monitor to a laptop via USB-C cable. While the laptop transmits the image signal to the monitor, the monitor is charging the laptop!
*Charging capabilities differ by models.

Saves desk space

A USB-C monitor often provides docking capabilities which means you no longer have to work with different cables.

Since many new laptops only have USB-C ports, it requires users to purchase an adapter if their monitor doesn't have USB-C capability. However, with a USB-C monitor, you can save money and time from having to buy another accessory!

Best Mac Compatible Monitors with USB-C

PD3220Q

| 4K (3840X2160) | 31"~32" | P3, sRGB |

• 32" 4K UHD 16:9 IPS LED Monitor w/Thunderbolt 3 connectivity
• 100% sRGB and 95% Display P3 color spaces
• HDR10 content support

PD2725U

| 4K (3840X2160) | 27"~28" | P3, sRGB |

• 100% sRGB and 95% P3 color spaces
• DisplayHDR 400 with wide gamut space for professional results
• Thunderbolt 3 for easy dual monitor setup

PD3420Q

| WQHD(3440X1440) | 34" or More | P3, sRGB |

• 34" WQHD 21:9 Ultrawide IPS LED Monitor
• 100% sRGB and 98% P3 color spaces
• VESA DisplayHDR 400 Certified

Best USB-C Compatible Monitors

PD3205U

| 4K (3840X2160) |

| 31"~32" | P3, sRGB |

• 31.5" 3840x2160 UHD 16:9 HDR IPS 4K Monitor
• 99% sRGB and Rec.709 color spaces
• USB-C One-Cable Connectivity

PD2705U

| 4K (3840X2160) |

| 27"~28" | sRGB |

• 27" 3840x2160 UHD 16:9 HDR IPS 4K Monitor
• 99% sRGB and Rec.709 color spaces
• USB-C One-Cable Connectivity

PD2506Q

| 2K (2560X1440) |

| 24"~25" | P3, sRGB |

• 25" 2K QHD 16:9 IPS LED Monitor USB-C connectivity
• Covers 95% P3 and offer Delta E ≤ 3 color consistency
• KVM & ICCsync boost work efficiency

BL2485TC

| 1920X1080 |

| 23"~24" | HDMI |

• USB-C connectivity for fast audio, video transmit
• Ergonomic design with slim bezel
• Daisy chain functionality for multi-monitor setups

BL2785TC

| 1920X1080 |

| 27" | HDMI |

• USB-C connectivity for fast audio, video transmit
• Ergonomic design with slim bezel
• Daisy chain functionality for multi-monitor setups
