BeyondTrust

Protect Your Paths to Privilege™

with Privilege-Centric Identity Security

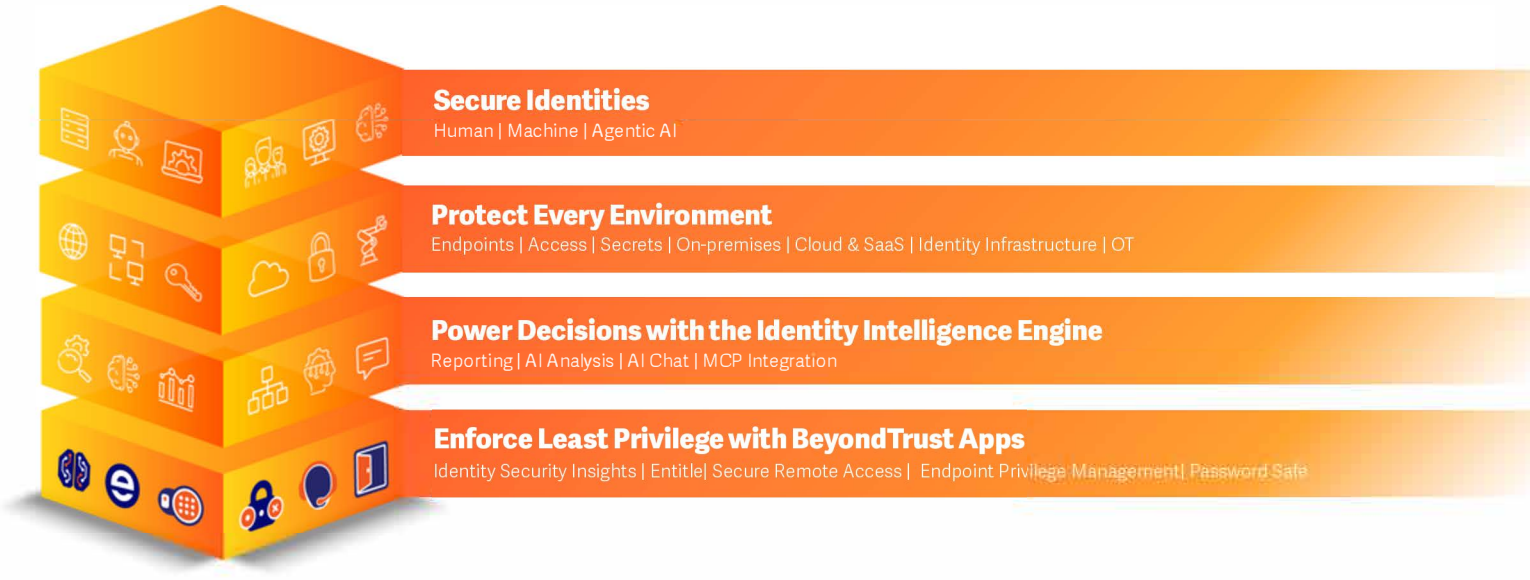

Multicategory Identity Security Innovation & Leadership

BeyondTrust is chosen by 20,000+ customers worldwide and recognized as a Leader in PAM / PIM, CIEM, Secrets Management, Remote Desktop Software, and ITDR.

The BeyondTrust Pathfinder Platform unifies our full solution set, enabling you to secure your evolving identity ecosystem across domains—at machine speed.

"Even in our complex environment, we've increased visibility across the organization and can consistently secure accounts, protect assets, and roll out new features."

DXC Technology, Director of IAM

The BeyondTrust Difference

Visibility

Illuminate shadow identities, privileges, and escalation paths across domains.

Intelligence

Detect instantly, prioritize next steps with risk in context, and respond with velocity and precision.

Protection

Enforce least privilege control over every identity type and access path.

BeyondTrust is recognized as a **Leader in the Gartner® Magic Quadrant™ for Privileged Access Management** for the 7th time

BeyondTrust

Secure Every Identity, Everywhere

BeyondTrust secures human, non-human, and agentic AI identities and their access, while creating operational efficiencies. Our Pathfinder Platform enables you to start with your greatest need, then roll-out additional products to unlock capabilities, efficiencies, and synergies.

Identity Security Insights®
Gain one holistic view of identities and access across your IT estate

Entitle
Enable just-in-time access with automated provisioning workflows

Password Safe
Gain visibility and control of privileged credentials and secrets

Privileged Remote Access
Create identity-secure, just-in-time access to all your environments

Endpoint Privilege Management
Enforce least privilege across Windows, macOS, and Linux

Remote Support
Securely access and support any device or system

Active Directory Bridge
Extend and manage Unix / Linux authentication and group policies

Use Cases

From foundational PAM to modern and emerging identity security use cases—no other vendor provides as robust security coverage over privilege, and how humans, machines, and AI agents access privilege.

- Agentic AI Security
- Cloud Security
- Compliance
- Cyber Insurance
- Identity Threat Detection & Response
- Just-in-Time Access
- Machine Identity Security
- Operational Technology
- Ransomware Protection
- Service Desk Security & Efficiency
- Zero Trust
