

## About BlueJeans

BlueJeans by Verizon provides cloud-based video conferencing services and solutions for all your business needs. We've helped thousands of companies worldwide foster stronger employee engagement and productivity by delivering easy, naturally collaborative, online video tools.

### Powered by Verizon

With BlueJeans by Verizon, you can benefit from combining a mobile workforce solution with our world-class network, ranked America's most reliable 5G network coupled with Verizon's unmatched security.

### So what's with the name?

Everyone loves a good pair of BlueJeans! Your favorite BlueJeans are versatile, hard-working, functional - something you can't imagine living without. BlueJeans is the fabric that ties together all your video conferencing needs.

### Nothing Fits Better!

With BlueJeans, you can schedule, join and host meetings effortlessly from any device or room system in seconds. The platform offers HD video and clear audio powered by Dolby Voice® and an intuitive and immersive interface. Boost meeting productivity by seamlessly integrating with your favorite scheduling, messaging and productivity tools. The platform's AI and voice recognition capabilities make meetings intelligent. Manage and troubleshoot meetings, events and rooms in real-time with an enterprise grade platform that meets the most demanding management, security and scalability requirements. BlueJeans is the platform for modern work!
