K-12 EDUCATION SOLUTIONS

Collaborate with
Brother in the
Pursuit of Excellence

HELP REDUCE COSTS • BOOST ACCESS AND SECURITY • ACCELERATE ACHIEVEMENT

A woman with blonde hair tied back, wearing a blue blazer, is standing in an office and interacting with a white Brother multifunction printer. She is touching the printer's control panel with her right hand and holding a red card in her left hand. The printer has the 'brother' logo on the front. The background shows a white wall and a wooden door.

Brother Education Solutions

Smart Print Management Designed for K-12 Education

No matter where your district is on the road to digital transformation, paper documents continue to be part of the equation. The challenge is in integrating paper and digital content, while also streamlining daily school operations. Collaborate with Brother and experience a measurable difference in key areas - student access, total cost of ownership, and efficiency.

From managing costs to optimizing workflows, Brother has successfully partnered with educational institutions across the country to identify document management issues. We then work closely with their IT departments to implement solutions that improve the education environment for both staff and students. This means continually adapting to changing instructional approaches, supporting evolving needs, and responding to budget requirements.

Read on to learn more about how your educational institution can benefit from partnering with Brother.

Classroom

- Print homework, assessments, and more.
- Print classroom signage and materials.
- Label cabinets, binders, boxes, etc.
- Print free classroom activities via creativecenter.brother/en-us.

Across the Board...

Security: Safeguard Your Devices, Documents, and Network

Built-in triple-layer security features help to protect documents, devices, and data from security threats. Brother devices can help protect student information and support compliance with the Family Education Rights and Privacy Act (FERPA).

Secure Print+ is an optional Brother Value Solution that helps ensure that confidential or sensitive documents do not print until the user authenticates with an NFC card on the machine's integrated NFC card reader¹ or by entering a PIN. This helps safeguard print data without the high cost of IT services, middleware, or infrastructure overhead typically required for this type of solution.

...Brother is the Smart Choice

Professional Services: Workflow Optimization

Every educational institution operates with unique workflow needs. You can trust Brother's Special Solutions Team (SST) to develop custom solutions that meet those needs. A custom User Interface (UI) can be integrated into a device's control panel to help streamline operations.² Brother can implement special display icons that route scanned documents directly to designated teams, departments, and groups to boost efficiency. Brother can also integrate preconfigured shortcuts to simplify workflows, speed job turnaround, and make using these solutions convenient for staff.

Print Management: Controlling and Recovering Costs

Through an integration with Kofax ControlSuite,³ users can secure, govern, and manage documents with content-aware unified printing, document capture, and workflow process automation – directly from a Brother device.

In addition, many Brother printers and MFPs integrate with PaperCut MF. PaperCut MF enables tracking, charging, and billing of copying, printing, faxing, and scanning to help you better manage costs. PaperCut MF supports complete and effective control of the printing environment.

This provides a competitive cost per page with significant ink, toner, and drum discounts on Brother Genuine Supplies, in addition to three years of Priority Exchange (Overnight Warranty Exchange) limited warranty coverage.

Major Account Program

For qualified customers, our dedicated and knowledgeable major account team provides expert advice and customized solutions to effectively meet specific needs, including:

- Priority call support
- Priority Exchange (Overnight Warranty Exchange)
- Customized call scripts
- Discounted parts ordering
- Extended warranties
- Help desk training
- Quick troubleshooting and problem resolution
- Access to field engineering/assessment teams

Brother Technology: Proven Reliability

Education budgets and IT resources are often stretched thin, which means the reliability of print and imaging devices is critical. Brother technology is engineered to handle tough demands, backed by a number of prestigious industry awards for reliability.

Investing in Future Generations...

Environmental Sustainability

At Brother, we take environmental considerations into account in all areas of our business, from product development/design and procurement of parts/materials to production, recycling, and support for environmental conservation activities. Brother offers a wide range of document management products that are compliant with energy industry standards, such as ENERGY STAR®, and offer environmentally-preferable features like default two-sided printing and toner save mode.
