

CDW PRINT SUPPLIES PROGRAM

powered by BROTHER

MANAGED PRINT SERVICES MADE SIMPLE: the FLEXIBILITY you need in a SIMPLE program that you want!

To meet your growing demands, Brother and CDW provide flexibility in support whether you are looking for a cost-per-click with an extended contract OR if you prefer options with no commitment. With the CDW Print Supplies Program (PSP) powered by Brother hardware, you can choose what's best for you!

This flexible program ensures your organization receives the support needed to manage your fleet, while providing exceptional benefits! Here are the benefits you can choose from:

Ultra-Low Cost Per Page:
deep discounts on Brother Genuine Supplies.

Automatic Toner Ordering (ATO):
automatic fulfillment of Brother Genuine Supplies, so you receive supplies at the right time, every time!

Prompted Toner Ordering (PTO): receive low toner alerts, and place your orders using a portal custom-designed for your organization.

Reliable Service Options: we analyze environments to report devices in need of repair.

- For the life of your contract - On-site, next-business day service
- No strings attached - 24-hour swaps, for up to 3-years*

MyPrinterManager.com:
visibility to your devices with an exclusive web portal.

- View supplies usage
- Shipment tracking
- Request service & support
- Summarized monthly reports

Free Ground Shipping on Brother Genuine Supplies.

Fixed SKU pricing agreement for three years on Brother Genuine Supplies.

Volume pricing on Brother hardware.

CDW PRINT SUPPLIES PROGRAM

powered by BROTHER

Additional benefits when powered by Brother Hardware:

Brother Recycling Program: Brother offers a cartridge collection and recycling program for select Brother Genuine Supplies. Simply reuse the shipping box from a new Brother toner or ink cartridge to package and send back the used cartridge.

Reforestation: The PrintReleaf technology platform is used to measure your paper usage and directly offsets it with reforestation projects. It measures paper consumption through technology integrations with print monitoring software applications. PrintReleaf then uses the data to plant the equivalent number of trees through a network of certified reforestation projects located around the world. Once a tree is planted, PrintReleaf administers an eight-year audit process to track the progress and survivability of the trees. Also, Print Releaf provides certificates and reports about the forests you have releafed over time.

Access to Kofax ControlSuite from select Brother

devices: Kofax ControlSuite offers a single, integrated, easy-to-manage solution that can be configured to automate a wide range of document- and information-dependent tasks.

Pre-configured devices

prior to shipment to ensure they arrive ready to operate, right out of the box!

Custom SKUs with exclusive settings and features.

FREE software and firmware customization support.

FREE automated installation and deployment of print drivers and software packages.

FREE environment print assessments to help determine the path of least resistance and financial reward.

Dedicated service priority telephone number and help desk training.
