Fleet Management

N-Sight™

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts *(Trio & CareLink only)*.

▼ **N-Sight™ helps you monitor your fleet.**
N-Sight helps facilities improve asset utilization, maximize fleet performance and value, and help prevent issues before they impact clinical workflow. The cloud-based N-Sight software features analytics to support optimized fleet utilization and simplified user management tools.

**Robust Cloud Solution**

N-Sight is a cloud based platform with no client software to install on facility desktop workstations or cart-based computers.

**Maximize Uptime and Availability**

Maintain cart availability while proactively monitoring cart fleet power levels and performance. Analytics provide visibility into power usage and allow adjustments to technology settings to maximize cart runtime.

**Right-Size Fleet**

Evaluate cart usage patterns and peak needs to determine if the number of carts deployed meet current clinical demands. Identify opportunities to redeploy carts to locations with greater needs, optimizing asset utilization.

**Remote Fleet Management**

N-Sight enables remote management of cart user groups, PIN codes, and user permissions. Save time finding lost carts with cart locator*, based on the last wireless access point.

**Configuration Settings**

Centralized management of cart configurations for displays & alerts, PINs, notifications and service requests.

**Integration with Hospital Systems**

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SMTP input.

*Cart Locator available with Trio
