Our job is to help you do yours. Capsa Healthcare is built upon a 60-year foundation of experience and innovation designed to improve the organization, efficiency, and accuracy of healthcare providers. We strive to elevate patient care by offering innovative solutions that positively impact clinical efficiency in healthcare environments. We understand the delivery of healthcare cannot wait, which is why we continually invest in product development, technology innovation, service, and support to make sure we are the logical choice for products that elevate the performance of healthcare delivery at the point-of-care.

Capsa Healthcare provides a broad portfolio of mobile computer carts, virtual care and patient experience carts, and wall mount workstations designed to optimize your health IT program. With reliable performance and simple serviceability, Capsa's mobility solutions enhance user experience and support better patient care.

Computing Workstations

The Trio Computing Workstation combines innovative advancements with flexibility to meet the needs of clinical users today and into the future.

NEW! The Trio line of computing workstations has expanded to support a wider range of mobile computing requirements. Trio LT is a powered computing workstation that offers all the essential features and proven power flexibility you want in a modern workstation. Trio NP, a non-powered workstation, supports simple care applications or workflows that do not require continuous power.

- Slim profile, improved mobility and enhanced features
- Trio and Trio LT feature the GoLife hybrid power system for extended mobile runtime
- Configurable with an array of drawer and bin options
- N-Sight[™] Fleet Management software with enhanced user management tools comes standard with the full-featured Trio workstation

Fleet Management

N-Sight[™]

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts (Trio & CareLink only).

▼ N-Sight[™] helps you monitor your fleet.

CAPSA | N-Sight™ **Optimize Your Fleet**

N-Sight helps facilities improve asset utilization, maximize fleet performance and value, and help prevent issues before they impact clinical workflow. The cloud-based N-Sight software features analytics to support optimized fleet utilization and simplified user management tools.

Robust Cloud Solution

N-Sight is a cloud based platform with no client software to install on facility desktop workstations or cart-based computers.

Maximize Uptime and Availability

Maintain cart availability while proactively monitoring cart fleet power levels and performance. Analytics provide visibility into power usage and allow adjustments to technology settings to maximize cart runtime.

Right-Size Fleet

Evaluate cart usage patterns and peak needs to determine if the number of carts deployed meet current clinical demands. Identify opportunities to redeploy carts to locations with greater needs, optimizing asset utilization.

Remote Fleet Management

N-Sight enables remote management of cart user groups, PIN codes, and user permissions. Save time finding lost carts with cart locator*, based on the last wireless access point.

Configuration Settings

Centralized management of cart configurations for displays & alerts, PINs, notifications and service requests.

Integration with Hospital Systems

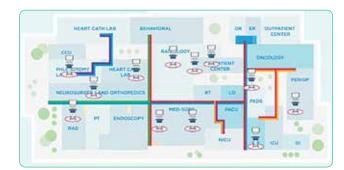

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SMTP input.

*Cart Locator available with Trio

Medication Workstations

The MedLink Cart is a medication management solution that ensures safe, accurate medication administration. It's specifically designed to reduce human error, keep patients safe, and create a closedloop medication system using lockable drawers and patient wristband scanning. This ensures each patient receives the correct medication while allowing caregivers to focus on patient care.

- AutoFit[™] Technology offers ease of adjustment for each user with combined adjustment for the work surface, keyboard, and display
- 20" (50.8 cm) height range ensures comfortable ergonomic accommodation for seated and standing caregivers
- Power Track[™] steering enables caregivers to easily maneuver in tight spaces and corridors
- Modular drawer design allows customizable layout and drawer sizes to meet workflow demands
- RFID technology assists in locating each patient drawer – to cart, cassette, caregiver

Medication Workstations

Ample Workspace

Ample work surface space allows for med preparation

MedLink[™] Pro Software

MedLink Pro, the next generation in medication management software, retrieves and displays patient data, and aids in the secure delivery of medication by healthcare professionals to promote patient safety. MedLink Pro is expertly designed to reduce human error and supports a closed-loop medication system.

- Drawers can be assigned to an individual patient through electronic labeling
- HL7 integration allows patient labels to be selected from the existing hospital patient list rather than manual entry
- RFID-embedded technology assists in locating each patient drawer – to the specific cart, cassette and caregiver
- Assigned drawers can be opened automatically by scanning a patient wristband barcode
- Integrates with Microsoft Active Directory

AutoFit™ Technology

Tryten S1 Tablet Cart Mobility Platforms

The Tryten S1 Tablet Cart is an ideal solution for those requiring an ergonomic, height-adjustable, mobility solution for iPads and tablets. With a locking, universal tablet mount, articulating arm, and weighted base, the S1 can securely hold a wide range of devices making it a versatile option for facilities.

The cart's design helps reduce strain on healthcare workers and the small footprint ensures it can fit in tight spaces. The Tryten S1 tablet cart optimizes healthcare workflow and improves patient care.

Ergonomic Design The adjustable

height and angle of the tablet make it comfortable to use in any position

Modular Design Customize your cart to your exact needs with over 40 peripheral and

accessory options

Small Footprint Compact profile takes

up minimal floor space

- Patented, articulating arm provides a heightadjustable, ergonomic user experience
- Universal mounting with the 360° rotating, sizeadjustable, locking OmniTab tablet mount
- Concealed cable management enables safe, secure operation and easy cleaning
- Large, height-adjustable utility box provides power points for plugging in devices
- VESA mount available for securely attaching a monitor
- IEC 60601 tested for tip resistance

Tryten S2 Tablet Cart Mobility Platforms

The Tryten S2 Tablet Cart is an ideal solution for healthcare environments in need of a versatile and secure way to use their tablet devices. The simple construction and small weighted base make it easy to set up and move as needed.

The secure, locking mount supports a wide variety of tablets and iPads, and accommodates a range of practical applications. The small footprint makes it easy to use in tight spaces, such as patient rooms or small exam rooms.

Tablet Tilt

Position your tablet at various angles for ease of use

Universal Tablet Bracket

Mount and lock tablets and iPads up to 12.95" with or without a case

Concealed Cable Management

Cable channel allows for discreet routing cables between devices and utility box

16

- Tilting tablet bracket pans 180° and rotates 360° for optimal tablet viewing
- Lockable holder fits tablet up to 12.95" and 3.5 lbs
- Compatible with Apple iPad Air, Pro 11" or 12.9", Microsoft Surface/Pro, Samsung Galaxy, Google Pixel, and others
- Available in a VESA mount configuration to securely support a monitor
- Concealed cable management for safe, secure operation and easy cleaning

Tryten S5 Monitor Cart **Mobility Platforms**

The Tryten S5 Monitor Mount Cart is an ideal solution for healthcare facilities seeking to enhance their telehealth services and virtual patient observation. The cart's VESA mount and extended height provide flexibility for multiple viewing angles, while a variety of accessory and peripheral options enable customization for a range of applications. The small, sturdy base takes up minimal floorspace, making it an excellent fit for any hospital room.

- Extra tall frame provides pole extension to increase height up to 68.7"
- Accommodates tablets or VESA mounted monitors up to 22"
- Compatible with all major apps, medical peripherals, and tablets
- Height-adjustable utility box and a cord wrap keep cables and power cords neatly stowed

S5

• IEC 60601 tested for tip resistance

Tryten X1 Monitor Cart Mobility Platforms

The Tryten X1 Monitort Cart is an excellent solution for healthcare facilities looking to incorporate larger monitors and video-based services into their hospital rooms and surgery centers. Its VESA mount and extended height allow for easy and secure mounting of larger screens, while its large sturdy base and locking casters reduce the risk of tipping.

Flexible Device Mounts Easy and secure mounting of larger screens

Adaptable Platform

Accessories and peripheral options support wide range of care applications

Sturdy Base Offers stability to

support larger monitors, accessories and peripherals

7tryten

18

- Accessory and peripheral options offer flexibility to support a range of healthcare applications
- 72" pole height positions camera and monitor above room clutter for optimal viewing
- Securely supports tablets or up to a 32" flat screen monitor
 - Concealed cable management enables safe, secure operation and easy cleaning
 - Large, height-adjustable utility box provides power points device plug-in
 - 22"x20" base IEC 60601 tested for tip resistance

CAPSA | SlimCart™

Mobile Documentation Cart

The non-powered, ultra-lightweight SlimCart[™] glides easily through tight care settings, providing a flexible, cost-effective solution for mobile documentation. The compact profile and 4" casters allow for simple mobility through doorways, in patient rooms or in hallways. The SlimCart™ provides a generous work surface with a bi-directional slide-out mouse surface and is configurable with your choice of technology.

- Configurable with your choice of laptop, tablet, or lightweight monitor
- Ultra lightweight, starting at just 27 pounds
- 15.35" w x 16.73" d compact profile for maneuvering in tight spaces
- Flexibility to configure with one or two storage drawers

CAPSA

CAPSA | SlimCart™ Flexible Configurations

Every facility's mobile documentation needs are different. That's why the SlimCart™ is designed to be flexible and easily configured to suit your technology and clinical workflow requirements.

The SlimCart[™] mobile documentation cart is designed to accept a wide variety of accessories.

CareLink[™] Fetal Monitoring Cart

The CareLink™ Fetal Monitoring cart provides both fetal monitoring and a mobile workstation in a single solution. Your choice of medical monitoring system promotes workflow efficiency in labor and delivery departments.

CAPSA

Phlebotomy Cart

Configure Trio or M38e as a flexible, mobile Phlebotomy workstation that keeps all of your blood draw supplies close at hand, and enables you to easily transport them throughout the facility. Multiple bin sizes and divider options provide ample storage and smart organization of phlebotomy supplies.

Registration Cart

Configure Trio or M38e for a flexible, mobile workstation that enables you to move easily from one patient room to another. Both platforms feature a large work surface, with a slide out extension for additional work space. Multiple drawer and bin options provide ample storage and smart organization of supplies. Choose from an array of accessories to best accommodate your choice of printers, scanners and electronic signature pads.

Features

- Dual-swivel monitor mount supports up to 22" monitors
- Stable open shelf supports and secures a variety of Fetal Monitoring systems
- N-Sight[™]fleet management for remote asset management
- N-Stride[™]steering control for effortless maneuverability and control
- Expansive work surface
- Height adjustable with electronic lift

Features

- Large work surface with raised edges and expandable surface feature
- Configurable to meet workflow needs
- Simple electronic height adjustment
- Slim profile for tight care settings and ease of mobility
- Ergonomic adjustments, easy maneuverability
- Increased runtime for improved uptime performance

Telepresence Cart

Equip the Trio or M38e workstation to enable video communication and enhance telehealth workflow with realtime consultation, connecting doctors with remote patients in real time, increasing access and timeliness to care.

CareLink[™] Telepresence Cart

The CareLink Telepresence cart is equipped to enable video communication to enhance your workflow with real-time consultations. This innovative telehealth workstation accommodates your choice of video conferencing technology enabling doctors and clinicians to connect with their patients.

Features

- Large work surface with rear utility bins and expandable surface feature
- Configurable with scanner mounts and printer shelves to meet patient registration workflow needs
- Choose from manual or electronic height adjustment
- Slim profile for tight care settings and ease of mobility

CareLink™ Telemedicine Cart

The CareLink Telemedicine Cart is designed to enable video communication and the use of diagnostic peripherals facilitating virtual care and timely diagnostics. CareLink connects doctors to remote patients in real time, increasing the access and timeliness to care.

Trio

CAPSA
