

WE GET STAYING CONNECTED.

To keep your business advancing and running smoothly with fast internet that works even when the power doesn't, you need Fixed Wireless connectivity solutions, orchestrated by CDW.

Did you know that CDW and many major internet carriers offer fully connected solutions for your business without the need for hardline internet? Fixed Wireless is the future of business connectivity. With Fixed Wireless, you can use your preferred carrier and hardware provider to create solutions tailored to your organization's specific needs. This means extended and speedy 5G wireless internet coverage anytime, anywhere with connectivity available even when traditional hardlines fail during a storm or power outage. Keep business opportunities flowing when you secure your mobile phones, laptops, tablets, Chromebooks and routers with Fixed Wireless.

Call your account manager for more information at 800.800.4239.
