

Secure connectivity, simplified.

Secure Connectivity & Collaboration

Sprawling networks, rising threats and complex procurement slow IT down. CDW Secure Connectivity & Collaboration Bundles pair pre-architected Cisco solutions for security, networking and communication—so you can deploy faster, secure every connection and keep teams collaborating from anywhere.

These can help you achieve:

**Stronger
Security**

**Faster
Deployment**

**Seamless
Collaboration**

What's Available

Pre-architected Cisco solutions, ready to deploy across your environment:

- **Secure networking** — Fuse security into the network to stop and contain threats at machine speed with Cisco secure networking.
- **Wireless & SD-WAN** — Reliable, high-performance connectivity from campus to branch to remote, with dynamic traffic insight.
- **Secure Access (SASE)** — Close security gaps for users on any device, anywhere—without sacrificing the experience.
- **Collaboration** — Webex and Microsoft Teams—ready devices and calling that keep hybrid teams connected.

CDW + CISCO

CDW's connectivity and collaboration solutions are expertly orchestrated to deliver real business outcomes—improved security, productivity and engagement. With more than 20 years delivering Cisco solutions, CDW pairs deep expertise with tight Cisco alignment to give you a seamless experience from design through management.
