

Align your IT investments with your growth goals

SMB Infrastructure Consulting Cisco Solutions

Your business is growing — and your technology needs to grow with it. CDW's SMB Infrastructure Consulting pairs CDW's services expertise with Cisco's market-leading portfolio to align your IT investments with your business goals. Together we help you build a reliable, scalable and highly secure foundation, so your team can focus on higher-value work instead of the daily grind.

SMB Infrastructure Consulting can help you achieve:

Scalable Growth

Secure Operations

Cost Efficiency

Finding the Right Solution

What can you expect from an SMB Infrastructure Consulting engagement?

- Collaborate with you to assess your current network, data center, security and collaboration environment against your growth goals.
- Identify aging or end-of-life infrastructure and map Cisco solutions — switching, wireless, security and collaboration — to your business priorities.
- Deliver a tailored roadmap that aligns IT investments to measurable outcomes: productivity, customer experience and reduced risk.
- Recommend and deploy right-sized, right-priced Cisco solutions, with flexible options on-premises, as managed services or in the cloud.

CDW + CISCO

CDW's infrastructure solutions are expertly orchestrated, user-centric solutions that deliver profitable business outcomes through improved performance, security and agility. CDW has more than 20 years of delivering Cisco solutions to organizations like yours. Cisco and CDW have tight alignment across all areas of the business, allowing us to deliver a seamless experience to our customers.
