

Hybrid infrastructure has to be more agile than ever before.

CDW Cisco Data Center Services Overview

We get it, data centers are evolving. No longer are they stand-alone, resilient islands of infrastructure; instead they are hybrid, and connected to all kinds of public and private cloud services. Cisco, in partnership with CDW, is accelerating innovation and organizational agility through a full catalog of services designed and delivered to optimize your hybrid infrastructure environments. From advisory to design, implementation and operational support options, CDW provides full-stack solutions delivered by a trusted partner.

CDW Cisco Data Center Services can help you achieve:

Agility

**Increased
Performance**

**Faster
Innovation**

Finding the Right Solution

Customers demand the most out of their infrastructure today. They also realize that to get the highest return on their investments, it is critical to leverage services throughout the entire lifecycle. CDW is your partner for success. All the way from assessing today's environment to building and implementing the plan for the future, CDW has a portfolio of solutions for the journey.

Everyone wants more agility, scale and alignment to real business outcomes with services and solutions that are built for your business. CDW brings that strategic and technical guidance to help you drive forward innovation and business transformation.

- **Advisory, Assessment, Planning and Design Services:** What's the vision? And what's the plan to get there?
- **Deployment and Migration Services:** Let CDW Services pave the way for you to get there.
- **Managed Services:** Can't operate as well as you would like? CDW can help.

With Cisco and CDW Services, you can have everything you need in a strategic solution and partnership: leading technology, from industry-leading account and technical teams — all from one of the most advanced Cisco partners in world.

CDW + CISCO

No other Cisco Gold Partner in the world offers CDW's combination of expertise and experience. We are a single provider for Cisco solutions, having attained the broadest range of expertise across multiple technologies. CDW is also Cisco's largest National Direct Integrator Partner.

CDW has the Cisco-certified engineers and architects to know or find an answer for just about any engagement or environment imaginable, and our customers have the confidence and peace of mind that we don't stop until they get the solution that is right for them. CDW brings Cisco along with our full portfolio of technologies and ecosystem partners to deliver the infrastructure and capabilities across our customers' technology lifecycles that deliver results.

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
