

CISCO FIREWALL UPGRADE OFFER

Upgrade your Cisco Secure Firewalls to the latest software version with this special offer from Cisco and CDW Security.

UPGRADE YOUR FIREWALLS TODAY

Cisco Secure Firewall version 7.2.4+ brings a multitude of advancements, including enhanced performance, unprecedented stability, and cutting-edge features. CDW and Cisco are making it easier than ever to upgrade and take advantage of these next-gen capabilities.

Contact your CDW Account Manager to get a quote for your environment, based on the promotional pricing below.

OFFER DETAILS

In an effort to encourage customers to upgrade to the latest next-gen firewall software, CDW and Cisco are offering steeply discounted upgrades for Cisco Firepower Series firewall. Depending on the number of FTD instances, some customers will not see any charge for the upgrade services. Upgrade services are delivered by CDW's certified security professional services teams.

Our transparent, fixed-fee packages simplify the upgrade process. With the special offer pricing, most customers will see little to no cost.

STANDARD	ENTERPRISE	ULTIMATE
\$0*	\$0*	\$0*
UPGRADE Up to 5 firewalls Up to 1FMC	UPGRADE Up to 25 firewalls Up to 1FMC	UPGRADE Up to 50 firewalls Up to 1FMC
\$7,500 TOTAL SERVICES SAVINGS	\$37,284 TOTAL SERVICES SAVINGS	\$73,134 TOTAL SERVICES SAVINGS

* Displayed pricing assumes customer upgrades the maximum number of eligible firewalls per tier.

ELIGIBILITY

Qualifying FTD platforms for upgrades are FPR 11xx, 21xx, 31xx, 41xx, 93xx, and virtual firewalls. CDW must perform upgrades of FTD instances from versions 6.x through 7.1 to version 7.2.4 or higher. All CDW customers (except Federal entities) are eligible for the promotion, even if they originally purchased the firewalls from a company other than CDW. *This promotion will run through July 26, 2025.*

BENEFITS OF UPGRADE

Cisco's Secure Firewall Software caters to customers seeking a balanced combination of cutting-edge features and enhanced stability.

Reduced Operational Expenses

Fleet upgrades, dynamic attributes, streamlined operations, and minimized expenditures.

Expanded Capabilities

Including enhanced branch WAN capabilities, monitoring, and simplified security for remote workers.

Extensive Improvements

300+ features, usability improvements, and software optimizations - including architectural improvements for ease of use and product performance.

SERVICES FROM CDW

CDW Security offers a full portfolio of professional and managed services to help you maximize the impact of your technology investments.

With more than 500 coworkers designing and delivering security services, and a broad services portfolio that includes robust network security capabilities, threat management, identity and access, and security program design and delivery, CDW has everything you need to mature and manage a world-class security program.

And as the reigning Cisco Americas Partner of the Year, CDW has unparalleled experience delivering security services that maximize the value of your Cisco toolset.
