Save the Day with Platform-Based Infrastructure

Meraki

Utilizing Available Federal Funds for K-12 School Districts

With over $130 billion in federal funding for K-12, there is no better time than now to improve the school experience.

Utilizing Available Federal Funds for K-12 School Districts

To help schools address challenges caused by the pandemic, the federal government has allocated over $130 billion in multiple programs for K-12 schools. This has created an opportunity for schools to invest in safety, cybersecurity, connectivity solutions, and technologies to modernize the classroom and improve the student and teacher experience.

Make the most of next generation Wi-Fi

The award-winning Cisco Meraki cloud management architecture offers powerful and intuitive centralised management. Meraki access points have revolutionised wireless networking.

Zero-touch deployments, multi-site visibility and control, and automated alerts make centralized network deployment, protection, and management a breeze.

- Integrated intrusion detection and prevention system (WIDS/WIPS)
- High-density Wi-Fi, both indoors and out
- Intuitive browser-based user interface
- Self-configuring, plug-and-play deployment
- Role-based administration and automatic, scheduled firmware upgrades delivered over the web

Security starts with simplicity

Ensure a safe school network, by monitoring events and preventing cyber threats, thanks to an interactive and intuitive security centre view in the Meraki dashboard.nagement a breeze.

- Get advanced malware protection with sandboxing
- SSL decryption/ inspection, data loss prevention, remote browser isolation, granular app control
- Uncover and block a broad spectrum of malicious domains, IPs, URLs, and files being used in attacks
- Get secure, reliable, and faster access to the internet and cloud apps

Increase visibility and make your educational facility safe

Protect your school assets proactively and remotely, monitoring any space with Meraki **Cloud Managed Smart Cameras**. Our solutions automatically purchase publicly signed SSL certificates and all Meraki management data is always encrypted by default.

- Easily connect with no special software or browser plug-ins required
- Secure video access and ensure privacy with role-based user accounts
- Simplify storage and access to historical data with Cloud Archive
- Use WAN bandwidth only when needed
