

## MANAGED SERVICES

# SIRIUS BACKUP AS A SERVICE FOR MICROSOFT OFFICE 365 POWERED BY METALLIC

Your documents, inboxes, and conversations need to be protected too. Get comprehensive protection for your Office 365 data that is proven to safeguard your business from deletion, corruption, and ransomware attacks.

## COMPREHENSIVE 24X7 MANAGEMENT OF YOUR BACKUP & RECOVERY OPERATIONS

Gain comprehensive protection across Microsoft Exchange, Teams, OneDrive, and SharePoint data. Sirius Backup as a Service (BaaS) solutions provide you with peace of mind that your data is protected and readily available when you need to access it. The Sirius “as a Service” model provides you with around-the-clock remote monitoring, incident management, the performance of restore requests, planning and optimization assistance, and regular reporting—all with one fixed monthly fee and no upfront costs. You also get access to a self-service web portal for easy and quick support interaction.

- Long term, extended retention, beyond recycle bin limitations
- Flexible restore options, both in-place and out-of-place recoveries
- Restore a mailbox or an individual item, recover a team or a single post
- Deduplication and compression for optimized performance

## ENTERPRISE GRADE PROTECTION

- Go above and beyond for your critical Office 365 data. With stringent security standards, privacy protocols, and zero-trust access controls built-in, Sirius BaaS for Office 365 powered by Metallic provides multi-layer data protection to combat today’s data loss threats.
- Isolated, air-gapped backups from source data
- Layered security plus GDPR compliance
- At-rest and in-flight data encryption
- Role-based, SSO, SAML authentication controls
- SOC2 and ISO 27001 certified

## THE SIRIUS ADVANTAGE

With Sirius BaaS for Office 365, you get fully managed and cost-effective data protection. It's a fully managed storage as a service (SaaS) solution that's proven to reduce costs and eliminate headaches, so you only pay for what you need.

- Supported platforms and applications:
  - Office 365 Exchange Online
  - Office 365 Teams
  - Office 365 SharePoint
  - Office 365 OneDrive
  - Office 365 Groups
  - Office 365 Project Online
- Unlimited Azure storage and unlimited retention included
- No hardware, installation, or large upfront capital investments
- Zero egress fees or hidden storage costs

## CONTACT SIRIUS ABOUT ALL YOUR DATA PROTECTION REQUIREMENTS

Sirius BaaS solutions provide comprehensive 27x7 management of your backup and recovery operations under strict service level agreements (SLAs), allowing you to focus on your core business priorities while retaining ownership of your backup technology. Sirius BaaS solutions employ flexible service options in pre-built or customized packages to best meet your data protection needs and budget. Based on your unique requirements, you can mix and match or customize a package for a specific application. You can also meet internal and regulatory requirements with our cost-effective, predictable monthly cost structure.
